ACKNOWLEDGMENTS

This technical documentation was prepared within the Data Access and Use Staff, under the direction of James P. Curry, Chief, and Barbara J. Aldrich, Chief of its Technical Information Section. Genny Burns was coordinator for this file. Clerical support was provided by Virginia Collins and Barbara Shugart. Doris Anderson and Lulu Myatt of the Demographic Surveys Division provided the unformatted data dictionary file.

ABSTRACT

*Survey of Income and Program Participation (SIPP) 1987 Panel
Wave 2 Rectangular Core and Topical Module Microdata File
[machine-readable data file] / conducted by the U.S. Bureau of the
Census. -Washington: The Bureau [producer and distributor], 1990.*

Type of File:

Microdata; unit of observation is an individual.

Universe Description:

The universe is the resident population of the United States, but excluding persons living in institutions and military barracks.

Subject-Matter Description:

The file contains basic demographic and social characteristics data for each member of the household. These include age, sex, race (White; Black; American Indian, Eskimo, and Aleut; Asian or Pacific Islander; and Other), ethnic origin (23 categories including 7 Spanish origin categories), marital status, household relationship, education, and veteran status. Limited data are provided on housing unit characteristics such as units in structure, tenure, access, and complete kitchen facilities. Core questions, which are repeated at each interview, cover labor force activity, types and amounts of income, and participation in various cash and noncash benefit programs for each month of the four-month reference period. Data for employed persons include number of hours and weeks worked, earnings, and weeks without a job. Nonworkers are classified as unemployed or not in the labor force. In addition to income data associated with labor force activity, data include nearly 50 other types of income. Core data also cover post secondary school attendance, public or subsidized rental housing, low-income energy assistance, and school breakfast and lunch participation. Topical module data cover reciprocity, employment, work disabilities, education and training histories, as well as family background, marital, migration, and fertility histories.

The sample consists of 4 rotation groups, each interviewed in a different month from June to September 1987. For each group the reference period for reporting labor force activity and income is the four calendar months preceding the interview month.

SIPP is a longitudinal survey where each sampled household and each descendent household is reinterviewed at 4-month intervals for 7 interviews or "waves." This file contains the results of the second interview. Unique codes are included on each record to allow linking together the same persons from the preceding and subsequent waves.

Geographic Coverage:

United States. Codes are included for 41 individual States and the District of Columbia, although the sample was not designed to produce State estimates. Areas in the SIPP sample in nine other States are identified in three groups for confidentiality reasons. The file identifies a subsample of metropolitan residents, along with codes for selected metropolitan statistical areas (MSA's) and consolidated metropolitan statistical areas (CMSA's).

Technical Description:

File Structure: Rectangular. Each logical record for a sampled person includes information on the household and family of which the person was a part during each month of the reference period, as well as characteristics of the person and each source of income received during the period.

File Size: 31,660 logical records; 6,896 character logical record length.

File Sort Sequence of Sample Units: Sampling unit identification number by entry address ID and person number within sampling unit.

Reference Materials:

Survey of Income and Program Participation (SIPP) 1987 Panel, Wave 4 Rectangular Microdata File Technical Documentation. The documentation includes this abstract, the data dictionary, an index to the data dictionary, relevant code lists, a questionnaire facsimile, and general information relative to SIPP. One copy of the technical documentation accompanies each file order but also may be purchased separately for \$25 from Data User Services Division, Customer Services, Bureau of the Census, Washington, D.C. 20233.

Interviewers' Manual (1985). Survey of Income and Program Participation. U.S. Department of Commerce, Bureau of the Census. The manual is available for \$10 from Data User Services Division, Customer Services, Bureau of the Census, Washington, D.C. 20233.

Survey of Income and Program Participation Users' Guide. The Users Guide contains a general overview of the file as well as chapters on survey design and content, structure and use of cross-sectional files, linking waves and reliability of the data. A single copy accompanies each technical documentation or tape order. Additional copies are available for \$15 each from Customer Services, Data User Services Division, Bureau of the Census, Washington, D.C. 20233.

Related Printed Reports:

Related printed reports include working papers, compilations of papers presented at annual meetings of the American Statistical Association, articles appearing in the *Journal of Economic and Social Measurement*, and reports in the P-70 series of the Current Population Reports. See the Users Guide that accompanies the documentation for ordering information.

Related Machine-Readable Data Files:

SIPP files from all Waves of the 1984, 1985, and 1986 Panels, and Waves 1 and 3 - 5 of the 1987 Panel are available from Customer Services, Data User Services Division, Bureau of the Census, Washington, D.C. 20233. An order form is on the following page for your convenience.

File Availability:

The file is available on 2 reels at 6250 bpi and on 7 reels at 1600 bpi. The cost is \$175 per reel. It may be ordered from Customer Services using the order form on the following page. A machine-readable dictionary is contained at the end of reel 7 at 1600 bpi and reel 2 at 6250 bpi. It is also available separately for \$175 on 1 reel at either density.

FILE INFORMATION

Geographic Coverage

State codes are shown except for nine States which are identified in three groups. A subsample of metropolitan residents is identified along with codes for selected metropolitan statistical areas (MSA's) and consolidated metropolitan statistical areas (CMSA's). **The sample was not designed to produce State or MSA/CMSA level estimates.** State codes are primarily useful in relating a respondent's reciprocity of benefits to thresholds which may vary from State to State. MSA/CMSA codes may be used in relating respondent characteristics with contextual variables.

Identification Number System

The SIPP Identification scheme is designed to uniquely identify individuals in each wave, provide a means of linking the same individuals over time, and group individuals into households and families over time.

The various components of the identification scheme are listed below:

- Sample Unit Identification Number
- Address ID
- Entry Address ID
- Person Number

The sample unit identification number was created by scrambling together the PSU, segment, and serial numbers used for Census Bureau administrative purposes. This identifier is constructed the same way on each wave regardless of moves, to enable matching from wave to wave.

The two-digit address ID code identifies each household associated with the same sample unit identification number. The first digit of the address ID code indicates the wave in which that address was first assigned for interview. The second digit sequentially numbers multiple households that have the same serial number. The address ID code is 11 for all sample addresses that are the same as in Wave 1. As SIPP sample persons move to new addresses, new address ID codes are assigned. Any new address to which sample unit members moved during Wave 4 is numbered in the 40's.

The person ID is a five-digit number consisting of the two-digit entry address ID and a three-digit person number. Person numbers 101, 102, etc., are assigned in Wave 1; 201, 202, etc., are assigned to persons added to the roster in Wave 2, and so forth. This five-digit number is not changed or updated, regardless of moves.

The sampling unit serial number and address ID code uniquely identifies each household in any given wave. The sampling unit serial number can link all households in subsequent waves back to the original Wave 1 household.

Topcoding of Income Variables

To protect against the possibility that a user might recognize the identity of a SIPP respondent with very high income, income from every source is "topcoded" so that no individual income amounts above \$100,000 are revealed. While the data dictionary indicates a topcode of \$33,332 for monthly income, this topcode will rarely be used. In most cases the monthly income is shown as an individual dollar amount of \$8,333, with \$8,333 actually representing "\$8,333 or more." (the \$100,000 annual income topcode is \$8,333 multiplied by 12 months). Individual monthly amounts above \$8333 may occasionally be shown if the respondent's income varied considerably from month to month, as long as the average does not exceed \$8,333. For example, if a respondents' income from a single job were concentrated in only one of the four reference months, a figure as high as \$33,332 could be shown. (Income from interest or property have lower topcodes).

Summary income figures on the person, family, and household records are simple sums of the components shown on the file after topcoding, and are not independently topcoded. Thus, a person with high income from

SIPP 1987 WAVE 2

several sources (jobs, businesses, property) could have aggregate monthly income well over the topcode for each source. Families and households with a number of high income members could theoretically have aggregate income shown well over \$100,000, through well below the \$1.5 million shown as the highest allowable value in the data dictionary.

The user is cautioned against trying to make much use of the occasional monthly figures above \$8,333, except in calculating aggregates or observing patterns across the 4-month period for a single individual, family, or household. Those units with higher monthly amounts shown are a biased sample of high income units, more likely to include units with income from multiple sources than other units with equally high aggregate income which comes from a single source.

GLOSSARY OF SELECTED TERMS

Absent 1 or more weeks. Absent 1 or more weeks means absent without pay from a job or business. Persons were absent without pay in a month if they were 'with a job' during the entire month, but were not at work at that job during at least 1 full week (Sunday through Saturday) during the month, and did not receive wages or a salary for any time during that week. Reasons for an unpaid absence include vacation, illness, layoff, bad weather, labor disputes, and waiting to start a new job.

Family household. A family household is a household maintained by a family; any unrelated persons (unrelated subfamily members and/or secondary individuals) who may be residing there are included. The number of family households is equal to the number of families. The count of family household members differs from the count of family members, however, in that the family household members include all persons living in the household, whereas family members include only the householder and his/her relatives.

Family. A family is a group of two or more persons (one of whom is the householder) related by birth, marriage, or adoption and residing together; all such persons (including related subfamily members) are considered members of one family.

Farm-nonfarm residence. The farm population refers to rural residents living on farms. Under this definition, a farm is any place in rural territory from which sales of crops, livestock, and other agricultural products amounted to \$1,000 or more during the previous 12-month period.

Full-time and part-time. The data on full- and part-time workers pertain to the number of hours a person usually worked per week during the weeks worked in the 4-month reference period of the survey. If the hours worked per week varied considerably, the respondent was asked to report an approximate average of the actual hours worked each week.

Persons 16 years old and over who reported usually working 35 or more hours each week during the weeks they worked are classified as 'full-time' workers; persons who reported that they usually worked fewer than 35 hours are classified as 'part-time' workers. The same definitions are used in the CPS.

Household. A household consists of all persons who occupy a housing unit. A house, an apartment or other group of rooms, or a single room is regarded as a housing unit when it is occupied or intended for occupancy as separate living quarters; that is, when the occupants do not live and eat with any other persons in the structure and there is either (1) direct access from the outside or through a common hall or (2) a kitchen or cooking equipment for the exclusive use of the occupants.

A household includes the related family members and all the unrelated persons, if any, such as lodgers, foster children, wards, or employees who share the housing unit. A person living alone in a housing unit or a group of unrelated persons sharing a housing unit as partners is also counted as a household. The count of households excludes group quarters. Examples of group quarters include rooming and boarding houses, college dormitories, and convents and monasteries.

Householder. Survey procedures call for listing first the person (or one of the persons) in whose name the home is owned or rented. If the house is owned jointly by a married couple, either the husband or the wife may be listed first, thereby becoming the reference person, or householder, to whom the relationship of the other household members is recorded. One person in each household is designated as the 'householder.' The number of householders, therefore, is equal to the number of households.

Layoff. In general, the word 'layoff' means release from a job because of slack work, material shortages, inventory taking, plant remodeling, installation of machinery, or other similar reasons. For this survey, persons were also on 'layoff' who did not have job but who responded that they have spent at least 1 week on layoff from a job and that they were available to accept a job.

In addition, persons were on 'layoff' in a given month if they were 16 years old or over and (a) were 'with a job' but 'absent without pay' from that job for at least 1 full week during that month, and (b) they responded that their main reason for being absent from their job or business was 'layoff.' 'On layoff' also includes a small number of persons who responded that they were waiting to report to a new wage and salary job that was to begin within 30 days. In other words, persons waiting to begin a new job are classified together with persons waiting to return to a job from which they have been laid off.

Looking for work. Persons who 'looked for work' in a given month are those who were 16 years old or over and (a) were without a job during at least 1 week during the month, (b) tried to get work or establish a business or profession in that week, and (c) were available to accept a job. Examples of jobseeking activities are (1) registering at a public or private employment office, (2) meeting with prospective employers, (3) investigating possibilities for starting a professional practice or opening a business, (4) placing or answering advertisements, (5) writing letters of application, and (6) being on a professional register.

The CPS uses a similar concept of 'looking for work.' The term 'unemployed' as used in the CPS includes persons who were looking for work in the reference week and those who were 'on layoff' or 'waiting to begin a new job in 30 days.'

Low-Income Home Energy Assistance Program. Benefits from the Federally funded LIHEAP authorized by Title XXVI of the Omnibus Budget Reconciliation Act of 1981, or comparable assistance provided through State funded assistance programs, may be received in the form of direct payment to the household as reimbursement for heating or cooling expenses or paid directly to the fuel dealer or landlord.

Means-tested benefits. The term means-tested benefits refers to programs that require the income or assets (resources) of the individual or family be below specified guidelines in order to qualify for benefits. These programs provide cash and noncash assistance to the low-income population. The major sources of means-tested cash and noncash assistance are shown in Appendix B-2.

Medicaid. This term refers to the Federal-State program of medical assistance for low-income individuals and their families as provided for by Title XIX of the Social Security Act. The phrase 'Medicaid covered' refers to persons enrolled in the Medicaid program, regardless of whether they actually utilized any Medicaid covered health care services during the survey reference period.

Medicare. This term refers to the Federal Health Insurance Program for the Aged and Disabled as provided for by Title XVIII of the Social Security Act. The phrase 'Medicare covered' refers to persons enrolled in the Medicare program, regardless of whether they actually utilized any Medicare covered health care services during the survey reference period.

Monthly income. The monthly income estimates for households are based on the sum of the monthly income received by each household member age 15 years old or over.

Cash income includes all income received from any of the sources listed in Appendix B-1. Rebates, refunds, loans, and capital gain or loss amounts from the sale of assets, and interhousehold transfers of cash such as allowances are not included. Accrued interest on Individual Retirement Accounts, KEOUGH retirement plans, and U.S. Savings bonds are also excluded. This definition differs somewhat from that used in the annual income reports based on the March CPS Income supplement questionnaire. These data, published in the Consumer Income Series, P-60, are based only on income received in a regular or periodic manner and, therefore, exclude lump-sum or one-time payments such as inheritances and insurance settlements. The March CPS income definition, however, does exclude the same income sources excluded by SIPP.

The income amounts represent amounts actually received during the month, before deductions for income and payroll taxes, union dues, Part B Medicare premiums, etc.

The SIPP income definition includes three types of earnings: wages and salary, nonfarm self-employment, and farm self-employment. The definition of nonfarm self-employment and farm self-employment is not based on the net difference between gross receipts or sales and operating expenses, depreciation, etc. The monthly amounts for these income types are based on the salary or other income received from the business by the owner of the business or farm during the 4-month reference period.

The Bureau of Labor Statistics publishes quarterly averages for an earnings concept called 'usual weekly earnings' for employed wage and salary workers. The concept differs from the SIPP earnings concept since it is based on usual, not actual earnings, excludes the self-employed, and excludes earnings from secondary jobs.

While the income amounts from most sources are recorded monthly for the 4-month reference period, property income amounts, interest, dividends, rental income, etc., were recorded as totals for the 4-month period. These totals were distributed equally between months of the reference period for purposes of calculating monthly averages.

Nonfamily household. A nonfamily household is a household maintained by a person living alone or with nonrelatives only.

Persons of Spanish origin. Persons of Spanish origin were determined on the basis of a question that asked for self-identification of the person's origin or descent. Respondents were asked to select their origin (or the origin of some other household member) from a 'flash card' listing ethnic origins. Persons of Spanish origin, in particular, were those who indicated that their origin was Mexican, Puerto Rican, Cuban, Central or South American, or some other Spanish origin. It should be noted that persons of Spanish origin may be of any race.

Population coverage. The estimates are restricted to the civilian noninstitutional population of the 50 States and members of the Armed Forces living off post or with their families on post.

Race. The population is divided into groups on the basis of race: White; Black; American Indian, Eskimo, or Aleut; Asian or Pacific Islander; and 'other races.'

Special Supplemental Food Program for women, Infants, and Children (WIC). Benefits are received in the form of vouchers that are redeemed at retail stores for specific supplemental nutritious foods. Eligible low-income recipients are infants and children up to age five and pregnant, postpartum, and breastfeeding women.

Unemployment compensation. This term refers to cash benefits paid to unemployed workers through a State or local unemployment agency. These include all benefits paid under the Federal-State unemployment insurance program as established under the Social Security Act, as well as those benefits paid to State and local government employees, Federal civilian employees, and veterans.

With a Job. Persons are classified 'with a job' in a given month if they were 16 years old or over and, during the month, either (a) worked as paid employees or worked in their own business or profession or on their own farm or worked without pay in a family business or farm or (b) were temporarily absent from work either with or without pay. In general, the word 'job' implies an arrangement for regular work for pay where payment is in cash wages or salaries, at piece rates, in tips, by commission, or in kind (meals, living quarters, supplies received). 'Job' also includes self-employment at a business, professional practice, or farm. A business is defined as an activity which involves the use of machinery or equipment in which money has been invested or an activity requiring an office or 'place of business' or an activity which requires advertising; payment may be in the form of profits or fees.

The Current Population Survey (CPS), the official source of labor force statistics for the Nation, uses the same definition for a job or business. The term 'with a job,' however, should not be confused with the term 'employed' as used in the CPS. 'With a job' includes those who were temporarily absent from a job because of layoff and those waiting to begin a new job in 30 days; in the CPS these persons are not considered 'employed.' See 'Worked each week' below.

With labor force activity. The term 'with labor force activity' includes all persons with a job (as defined above) and those looking for work or on layoff from a job for at least 1 week during a given month. Conversely, those persons 'with no labor force activity' had no job, were not on layoff from a job and made no effort to find a job during the month.

Work disability. Persons were classified as having a work disability if they were identified by the respondent as having a physical, mental, or other health condition that limits the kind or amount of work they can do.

Worked each week. Persons 'worked each week' in a month if, for the entire month, they were 'with a job' and not 'absent without pay' from the job. In other words, a person worked each week in any month when they were (a) on the job the entire month, or (b) they received wages or a salary for all weeks in the month, whether they were on the job or not. Persons also worked each week if they were self-employed and spent time during each week of the month at or on behalf of the business or farm they owned, as long as they received or expected to receive profit or fees for their work.

In the CPS, the concept at 'work' includes those persons who spent at least 1 hour during the reference week at their job or business. In the CPS, however, 'at work' does not include persons who were temporarily absent from their jobs during the entire reference week on paid vacation, sick leave, etc. In SIPP, 'worked each week' does include persons on paid absences.

INDEX TO 1987 WAVE 2 CORE FILE

This is an index to the data dictionary for the 1987 panel SIPP rectangular core files, Waves 2 to 7. Wave 1 has a slightly different layout, with corresponding items in the same sequence but not exactly the same locations.

The column heading "ITEM" lists the items in alphabetic order. The column headed "MNEMONIC" presents the same 8-character data names as are shown in the data dictionary, with two exceptions. Where there are separate entries for the four reference months, an asterisk (*) replaces the 1, 2, 3, or 4 that would appear in the actual mnemonic. Where there is an entry in the "LOC" column as well as the four months, the data item refers to the same characteristic as of the interview date, and would carry a 5 in place of the asterisk in the mnemonic. Where a colon appears in the mnemonic, as in SC1660:78, the index entry applies to two or more consecutive fields, in this case starting with SC1660 and ending with SC1678.

The five columns at the right present the beginning character location for the referenced data field or fields. Entries in the four righthand columns refer to data specific to particular months during the reference period. For example, data in the column headed "MON1" refer to the first reference months (four months prior to the interview). Entries in the column headed "LOC" refer to characteristics as of the interview date, e.g., the highest grade attended, or other items not differentiated by month during the reference period. Where the entry refers to more than one consecutive data field, the location is that of the first character of the first field.

This index may also be used as an index to the questionnaire document itself, reproduced in Appendix B. Each item on the questionnaire carries a boxed 4-digit number next to the answer fields. This number appears as part of the mnemonic wherever the correspondence between the item on tape and the questionnaire item is direct. The 4-digit number is usually preceded by "SC", but when other characters appear they add meaning. For example, WS1-2012 corresponds to questionnaire item 2012 (on class of worker) and the "WS1" distinguishes the response for the first wage/salary job from a response for the second such job, which would begin with "WS2". Mnemonics without 4-digit numbers are associated with items from the control card or are the result of manipulating or "recoding" one or more items from the questionnaire.

HOW TO USE THE DATA DICTIONARY

The Data Dictionary describes the contents and record layout of the public-use computer tape file. The first line of each data item description gives the data name, size of the data field, and the begin position of the field.

The next few lines contain descriptive text and any applicable notes. Categorical value codes and labels are given where needed. Comment notes marked by an (*) are provided throughout. Comments should be removed from the machine-readable version of the data dictionary before using it to help access the data file.

Data. Alphabetic, numeric, and the special character (-). No other special characters are used. It may be a mnemonic such as "STATE" or "SE1-OCC", or a sequential identifier such as "SC1176" or "WS-IMP01". Data item names are unique throughout the entire file.

Size. Numeric. The size of a data item is given in characters. Indication of implied decimal places is provided in notes.

Begin. Numeric. Contains the location in the data record of the first character position of the data item field.

The first line of each data item description begins with the character "D" (left-justified, two characters). The "D" flag indicates lines in the data dictionary containing the name, size, relative begin and begin position of each data item. This information (in machine-readable form) can be used to help access the data file. The line beginning with the character "U" describes the universe for that item. Lines containing categorical value codes and labels follow next and begin with the character "V". The special character (.) denotes the start of the value labels. Two examples of data item descriptions follow:

```
D SC1218  1 2805
  What was the main reason ... could
  not take a job during those weeks
U Persons 15 years old or older
V   0 .Not in universe
V   1 .Already had a job
V   2 .Temporary illness
V   3 .School
V   4 .Other

D RR3064  2 3760
  Railroad retirement sends out two types
  of checks; which color check does ...
  receive.
U Persons age 15 years or older receiving
  railroad retirement

SIPP WAVE 2 1987 PANEL RECTANGULAR DATA DICTIONARY

DATA SIZE BEGIN

D SUSEQNUM 5 0001
 Sequence number of sample unit
 Primary sort key. Range = 00001:32000.
 U All sample units

D SU-ID 9 0006
 Sample unit identifier
 Unique scrambled combination of the
 PSU, segment, and serial numbers of
 the original sample address. Used
 to match sample units from different
 waves. Range = 000000000:999999999
 U All sample units

D SU-ROT 1 0015
 Rotation group. Range = 1:4.
 U All sample units

D SUHHCNT1 2 0016
 Number of households in sample for
 month 1 of the reference period.
 Range = 01:30
 U All sample units

D SUHHCNT2 2 0018
 Number of households in sample for
 month 2 of the reference period.
 Range = 01:30
 U All sample units

D SUHHCNT3 2 0020
 Number of households in sample for
 month 3 of the reference period.
 Range = 01:30
 U All sample units

D SUHHCNT4 2 0022
 Number of households in sample for
 month 4 of the reference period.
 Range = 01:30
 U All sample units

D SUHHCNT5 2 0024
 Number of households in sample as of
 the interview date. Range = 01:30
 U All sample units

D SU-TOTHH 2 0026
 Total number of households
 (address ID's) in the sample unit.
 Range = 01:30.
 U All sample units

D SU-TOTFF 2 0028
 Total number of families and pseudo
 families in the sample unit. A
 pseudo family is an individual who
 is not related to anyone else in the
 household in which he lives. It may
 be a person who lives alone. Family
 information for a pseudo family is
 shown in the family sections of the
 person record. Range = 00:60.
 U All sample units

D SU-TOTPP 2 0030
 Total number of person records
 for this sample unit. Range = 00:60.
 U All sample units

DATA SIZE BEGIN

D SU-TOTWS 2 0032
 Total number of wage or salaried
 businesses reported for members of
 the sample unit. Each person in the
 sample unit may report up to two
 wage or salaried businesses. Range = 00:30.
 U All sample units

D SU-TOTSE 2 0034
 Total number of self-employment
 businesses reported for members of
 the sample unit. Each person in
 the same unit may report up to two
 self-employment businesses.
 Range = 00:20.
 U All sample units

D SU-TOTG2 2 0036
 Total number of persons in the sample
 unit who receive some sort of income
 as the result of ownership of some
 asset(s). Range = 00:30.
 U All sample units

D STATE 2 0038
 FIPS State code for the sample unit
 U All sample units

V	3	.None
D FILLER	9	2205
Zero filler		
D PREV-ROT	1	2214
Rotation in which this person was		
interviewed before leaving another		
sample unit and joining this one.		
U All persons, including children		
D FILLER	5	2215
Zero filler		

** Change variables **		

D HCHANGE1	1	2220
Used to determine if the household in		
which this person lived changed		
composition over the 4 reference months		
or in the 5th month up until date of		
interview. A change in address is not		
reflected in this field unless the		
composition of the group living		
together changes as a result. The		
first field is always "1". For each		
succeeding month the value of the field		
is the same as for the preceding month		
if there has been no change in		
composition. If a change has occurred,		
the field for the following month is		
one greater than the field for the		
preceding month. Month 1. Range = 1		
U All persons, including children		

DATA	SIZE	BEGIN
D HCHANGE2	1	2221
Used to determine if the household in		
which this person lived changed		
composition. Month 2. Range = 1:2		
U All persons, including children		
D HCHANGE3	1	2222
Used to determine if the household in		
which this person lived changed		
composition. Month 3. Range = 1:3		
U All persons, including children		
D HCHANGE4	1	2223
Used to determine if the household in		
which this person lived changed		
composition. Month 4. Range = 1:4		
U All persons, including children		
D HCHANGE5	1	2224
Used to determine if the household in		
which this person lived changed		
composition. Interview date.		
Range = 1:5		
U All persons, including children		
D FCHANGE1	1	2225
Used to determine if the family (or		
pseudo family) changed in composition		
from one month to the next.		
These fields only relate to primary and		
unrelated secondary families and to		
primary and secondary individuals. To		
determine change in related subfamilies		
see 'S-CHANGE' below. The values of		
the fields for the respective months		
are determined in the same manner as		
for 'H-CHANGE' above. Month 1.		
Range = 1		
U All persons, including children		
D FCHANGE2	1	2226
Used to determine if the family (or		
pseudo family) changed in composition.		
Month 2. Range = 1:2		
U All persons, including children		
D FCHANGE3	1	2227
Used to determine if the family (or		
pseudo family) changed in composition.		
Month 3. Range = 1:3		
U All persons, including children		
D FCHANGE4	1	2228
Used to determine if the family (or		
pseudo family) changed in composition.		
Month 4. Range = 1:4		
U All persons, including children		
D SCHANGE1	1	2229
Used to determine if the related		
subfamily which includes this person,		
changed composition from month to month.		
If, during any month, the person is not		
a member of a related subfamily, the		
value of the field for the corresponding		
month is '0'. For members of		
subfamilies the values in the fields		
are derived as in 'H-CHANGE' above.		
Month 1. Range = 1		
U All persons, including children

SOURCE AND ACCURACY STATEMENT SURVEY OF INCOME AND PROGRAM PARTICIPATION (SIPP) 1986 AND 1987 PANELS

SOURCE OF DATA

The data were collected in the 1986 and 1987 panels of the Survey of Income and Program Participation (SIPP). The SIPP universe is the noninstitutionalized resident population living in the United States. The population includes persons living in group quarters, such as dormitories, rooming houses, and religious group dwellings. Crew members of merchant vessels, Armed Forces personnel living in military barracks, and institutionalized persons, such as correctional facility inmates and nursing home residents, were not eligible to be in the survey. Also, United States citizens residing abroad were not eligible to be in the survey. Foreign visitors who work or attend school in this country and their families were eligible; all others were not eligible to be in the survey. With the exception noted above, persons who were at least 15 years of age at the time of the interview were eligible to be in the survey.

Each of the 1986 and 1987 panels of the SIPP sample are located in 230 Primary Sampling Units (PSUs) each consisting of a county or a group of contiguous counties. Within these PSUs, expected clusters of 2 living quarters (LQs) were systematically selected from lists of addresses prepared for the 1980 decennial census to form the bulk of the sample. To account for LQs built within each of the sample areas after the 1980 census, a sample was drawn of permits issued for construction of residential LQs up until shortly before the beginning of the panel. In jurisdictions that do not issue building permits, small land areas were sampled and the LQs within were listed by field personnel and then clusters of 4 LQs were subsampled. In addition, sample LQs were selected from supplemental frames that included LQs identified as missed in the 1980 census and persons residing in group quarters at the time of the Census.

Approximately 16,300 living quarters were originally designated for the 1986 panel and approximately 16,700 for the 1987 panel. For Wave 1 of the 1986 panel, interviews were obtained from the occupants of about 11,500 of the 16,300 designated living quarters. For Wave 1 of the 1987 Panel about 11,700 interviews were obtained from the 16,700 designated living quarters. Most of the remaining 4800 living quarters in the 1986 panel and 5000 living quarters in the 1987 panel were found to be vacant, demolished, converted to nonresidential use, or otherwise ineligible for the survey. However, approximately 900 of the 4800 living quarters in the 1986 panel and 800 of the 5000 living quarters in the 1987 panel were not interviewed because the occupants refused to be interviewed, could not be found at home, were temporarily absent, or were otherwise unavailable. Thus, occupants of about 93 percent of all eligible living quarters participated in Wave 1 of the Survey for both the 1986 and 1987 panels.

For Waves 2-7, only original sample persons (those in Wave 1 sample households and interviewed in Wave 1) and persons living with them were eligible to be interviewed. With certain restrictions, original sample persons were to be followed if they moved to a new address. When original sample persons moved without leaving a forwarding address or moved to extremely remote parts of the country and no telephone number was available, additional noninterviews resulted.

Sample households within a given panel are divided into four subsamples of nearly equal size. These subsamples are called rotation groups 1, 2, 3, or 4 and one rotation group is interviewed each month. Each household in the sample was scheduled to be interviewed at 4 month intervals over a period of roughly 2½ years beginning in February 1986 for the 1986 panel and February 1987 for the 1987 panel. The reference period for the questions is the 4-month period preceding the interview month. In general, one cycle of four interviews covering the entire sample, using the same questionnaire, is called a wave. The exception is Wave 3 for the 1986 panel which covers three interviews.

The public use files include core and supplemental (topical module) data. Core questions are repeated at each interview over the life of the panel. Topical modules include questions which are asked only in certain waves. The 1986 and 1987 panel topical modules are given in tables 1 and 2, respectively.

Tables 3 and 4 indicate the reference months and interview months for the collection of data from each rotation group for the 1986 and 1987 panels. For example, Wave 1 rotation group 2 of the 1986 panel was interviewed in February 1986 and data for the reference months October 1985 through January 1986 were collected.

SOURCE AND ACCURACY

Estimation.

The estimation procedure used to derive SIPP person weights involved several stages of weight adjustments. In the first wave, each person received a base weight equal to the inverse of his/her probability of selection. For each subsequent interview, each person received a base weight that accounted for following movers. A noninterview adjustment factor was applied to the weight of every occupant of interviewed households to account for households which were eligible for the sample but were not interviewed. (Individual nonresponse within partially interviewed households was treated with imputation. No special adjustment was made for noninterviews in group quarters.) A factor was applied to each interviewed person's weight to account for the SIPP sample areas not having the same population distribution as the strata from which they were selected.

An additional stage of adjustment to persons' weights was performed to reduce the mean square error of the survey estimates by ratio adjusting SIPP sample estimates to monthly Current Population Survey (CPS) estimates¹ of the civilian (and some military) noninstitutional population of the United States by age, race, Spanish origin, sex, type of householder (married, single with relatives, single without relatives), and relationship to householder (spouse or other). The CPS estimates were themselves brought into agreement with estimates from the 1980 decennial census which were adjusted to reflect births, deaths, immigration, emigration, and changes in the Armed Forces since 1980. Also, an adjustment was made so that a husband and wife within the same household were assigned equal weights.

Use of Weights.

Each household and each person within each household on each wave tape has five weights. Four of these weights are reference month specific and therefore can be used only to form reference month estimates. Reference month estimates can be averaged to form estimates of monthly averages over some period of time. For example, using the proper weights, one can estimate the monthly average number of households in a specified income range over November and December 1986. To estimate monthly averages of a given measure (e.g., total, mean) over a number of consecutive months, sum the monthly estimates and divide by the number of months.

The remaining weight is interview month specific. This weight can be used to form estimates that specifically refer to the interview month (e.g., total persons currently looking for work), as well as estimates referring to the time period including the interview month and all previous months (e.g., total persons who have ever served in the military).

To form an estimate for a particular month, use the reference month weight for the month of interest, summing over all persons or households with the characteristic of interest whose reference period includes the month of interest. Multiply the sum by a factor to account for the number of rotations contributing data for the month. This factor equals four divided by the number of rotations contributing data for the month. For example, February 1986 data is only available from rotations 1, 3, and 4 for Wave 1 of the 1986 panel, so a factor of 4/3 must be applied. To form an estimate for an interview month, use the procedure discussed above using the interview month weight provided on the file.

When estimates for months without four rotations worth of data are constructed from a wave file, factors greater than 1 must be applied. However, when core data from consecutive waves are used together, data from all four rotations may be available, in which case the factors are equal to 1.

These tapes contain no weight for characteristics that involve a person's or household's status over two or more months (e.g., number of households with a 50 percent increase in income between November and December 1986).

1. These special CPS estimates are slightly different from the published monthly CPS estimates. The differences arise from forcing counts of husbands to agree with counts of wives.

Producing Estimates for Census Regions and States.

The total estimate for a region is the sum of the state estimates in that region.

Using this sample, estimates for individual states are subject to very high variance and are not recommended. The state codes on the file are primarily of use for linking respondent characteristics with appropriate contextual variables (e.g., state-specific welfare criteria) and for tabulating data by user-defined groupings of states.

Producing Estimates for the Metropolitan Population.

For Washington, DC and 11 states, metropolitan or non-metropolitan residence is identified (variable H*-METRO). In 34 additional states, where the non-metropolitan population in the sample was small enough to present a disclosure risk, a fraction of the metropolitan sample was recoded to be indistinguishable from non-metropolitan cases (H*-METRO=2). In these states, therefore, the cases coded as metropolitan (H*-METRO=1) represent only a subsample of that population.

In producing state estimates for a metropolitan characteristic, multiply the individual, family, or household weights by the metropolitan inflation factor for that state, presented in table 8. (This inflation factor compensates for the subsampling of the metropolitan population and is 1.0 for the states with complete identification of the metropolitan population.)

The same procedure applies when creating estimates for particular identified MSA's or CMSA's--apply the factor appropriate to the state. For multi-state MSA's, use the factor appropriate to each state part. For example, to tabulate data for the Washington, DC-MD-VA MSA, apply the Virginia factor of 1.0521 to weights for residents of the Virginia part of the MSA; Maryland and DC residents require no modification to the weights (i.e., their factors equal 1.0).

In producing regional or national estimates of the metropolitan population, it is also necessary to compensate for the fact that no metropolitan subsample is identified within two states (Mississippi and West Virginia) and one state-group (North Dakota - South Dakota - Iowa). Thus, factors in the right-hand column of table 8 should be used for regional and national estimates. The results of regional and national tabulations of the metropolitan population will be biased slightly. However, less than one-half of one percent of the metropolitan population is not represented.

Producing Estimates for the Non-Metropolitan Population.

State, regional, and national estimates of the non-metropolitan population cannot be computed directly, except for Washington, DC and the 11 states where the factor for state tabulations in table 8 is 1.0. In all other states, the cases identified as not in the metropolitan subsample (METRO=2) are a mixture of non-metropolitan and metropolitan households. Only an indirect method of estimation is available: first compute an estimate for the total population, then subtract the estimate for the metropolitan population. The results of these tabulations will be slightly biased.

ACCURACY OF THE ESTIMATES

SIPP estimates obtained from public use files are based on a sample; they may differ somewhat from the figures that would have been obtained if a complete census had been taken using the same questionnaire, instructions, and enumerators. There are two types of errors possible in an estimate based on a sample survey: nonsampling and sampling. The magnitude of SIPP sampling error can be estimated, but this is not true of nonsampling error. Found below are descriptions of sources of SIPP nonsampling error, followed by a discussion of sampling error, its estimation, and its use in data analysis.

SOURCE AND ACCURACY

Nonsampling Variability.

Nonsampling errors can be attributed to many sources, e.g., inability to obtain information about all cases in the sample, definitional difficulties, differences in the interpretation of questions, inability or unwillingness on the part of the respondents to provide correct information, inability to recall information, errors made in collection such as in recording or coding the data, errors made in processing the data, errors made in estimating values for missing data, biases resulting from the differing recall periods caused by the rotation pattern used and failure to represent all units within the universe (undercoverage). Quality control and edit procedures were used to reduce errors made by respondents, coders and interviewers.

Undercoverage in SIPP results from missed living quarters and missed persons within sample households. It is known that undercoverage varies with age, race, and sex. Generally, undercoverage is larger for males than for females and larger for blacks than for nonblacks. Ratio estimation to independent age-race-sex population controls partially corrects for the bias due to survey undercoverage. However, biases exist in the estimates to the extent that persons in missed households or missed persons in interviewed households have different characteristics than the interviewed persons in the same age-race-Spanish origin-sex group. Further, the independent population controls used have not been adjusted for undercoverage.

The following tables summarize information on household nonresponse for the interview months for Wave 1 of the 1986 and 1987 panels, respectively.

Table 5. 1986 Panel: Sample Size, by Month and Interview Status

Household Units Eligible				Nonresponse Rate (%)
Month	Total	Interviewed	Noninterviewed	
Feb. 1986	3200	3000	300	8
Mar. 1986	3100	2900	200	9
Apr. 1986	3100	2800	200	7
May 1986	3000	2800	200	7
	12,400	11,500	900	

* Due to rounding of all numbers at 100, there are some inconsistencies. The percentage was calculated using unrounded numbers.

Table 6. 1987 Panel: Sample Size, by Month and Interview Status

Household Units Eligible				Nonresponse Rate (%)
Month	Total	Interviewed	Noninterviewed	
Feb. 1987	3100	2900	200	7
Mar. 1987	3200	2900	200	7
Apr. 1987	3000	2900	200	6
May 1987	3200	3000	200	8
	12,500	11,700	800	

* Due to rounding of all numbers at 100, there are some inconsistencies. The percentage was calculated using unrounded numbers.

Sample loss at Wave 1 of the 1986 and 1987 Panels was about 7% and increased to roughly 19% at the end of Wave 5 of the 1986 Panel and to roughly 18% at the end of Wave 5 for the 1987 Panel. Further noninterviews increased the sample loss about 1% for each of the remaining waves.

Some respondents do not respond to some of the questions. Therefore, the overall nonresponse rate for some items such as income and other money related items is higher than the nonresponse rates in the above tables.

The Bureau uses complex techniques to adjust the weights for nonresponse, but the success of these techniques in avoiding bias is unknown.

Unique to the 1986 Panel, maximum telephone interviewing was tested in Waves 2,3, and 4. Specifically, half of the sample in rotations 4 and 1 of Wave 2, rotations 2 and 3 of Wave 3 and rotations 2,3, and 4 of Wave 4 were designated for telephone interviews. Analysis has not yet been completed so the affect on data quality is not yet known. Hence, caution should be used when interpreting analytical results, especially for Waves 2 through 4 of the 1986 panel. Again, this test was conducted in the 1986 panel only and will have no bearing on the 1987 Panel data.

Comparability With Other Statistics.

Caution should be exercised when comparing data from these files with data from other SIPP products or with data from other surveys. The comparability problems are caused by sources such as the seasonal patterns for many characteristics, definitional differences, and different nonsampling errors.

Sampling Variability.

Standard errors indicate the magnitude of the sampling variability. They also partially measure the effect of some nonsampling errors in response and enumeration, but do not measure any systematic biases in the data. The standard errors for the most part measure the variations that occurred by chance because a sample rather than the entire population was surveyed.

Confidence Intervals.

The sample estimate and its standard error enable one to construct confidence intervals, ranges that would include the average result of all possible samples with a known probability. For example, if all possible samples were selected, each of these being surveyed under essentially the same conditions and using the same sample design, and if an estimate and its standard error were calculated from each sample, then:

1. Approximately 68 percent of the intervals from one standard error below the estimate to one standard error above the estimate would include the average result of all possible samples.
2. Approximately 90 percent of the intervals from 1.6 standard errors below the estimate to 1.6 standard errors above the estimate would include the average result of all possible samples.
3. Approximately 95 percent of the intervals from two standard errors below the estimate to two standard errors above the estimate would include the average result of all possible samples.

The average estimate derived from all possible samples is or is not contained in any particular computed interval. However, for a particular sample, one can say with a specified confidence that the average estimate derived from all possible samples is included in the confidence interval.

Hypothesis Testing.

Standard errors may also be used for hypothesis testing, a procedure for distinguishing between population parameters using sample estimates. The most common types of hypotheses tested are 1) the population parameters are identical versus 2) they are different. Tests may be performed at various levels of significance,

SOURCE AND ACCURACY

where a level of significance is the probability of concluding that the parameters are different when, in fact, they are identical.

To perform the most common hypothesis test, compute the difference $X_A - X_B$, where X_A and X_B are sample estimates of the parameters of interest. A later section explains how to derive an estimate of the standard error of the difference $X_A - X_B$. Let that standard error be s_{DIFF} . If $X_A - X_B$ is between -1.6 times s_{DIFF} and $+1.6$ times s_{DIFF} , no conclusion about the parameters is justified at the 10 percent significance level. If on the other hand, $X_A - X_B$ is smaller than -1.6 times s_{DIFF} or larger than $+1.6$ times s_{DIFF} , the observed difference is significant at the 10 percent level. In this event, it is commonly accepted practice to say that the parameters are different. Of course, sometimes this conclusion will be wrong. When the parameters are, in fact, the same, there is a 10 percent chance of concluding that they are different.

Note when using small estimates.

Because of the large standard errors involved, there is little chance that summary measures would reveal useful information when computed on a smaller base than 200,000. Also, care must be taken in the interpretation of small differences. For instance, in case of a borderline difference, even a small amount of nonsampling error can lead to a wrong decision about the hypotheses, thus distorting a seemingly valid hypothesis test.

Standard Error Parameters and Tables and Their Use.

Most SIPP estimates have greater standard errors than those obtained through a simple random sample because clusters of living quarters are sampled. To derive standard errors that would be applicable to a wide variety of estimates and could be prepared at a moderate cost, a number of approximations were required. Estimates with similar standard error behavior were grouped together and two parameters (denoted "a" and "b") were developed to approximate the standard error behavior of each group of estimates. These "a" and "b" parameters are used in estimating standard errors and vary by type of estimate and by subgroup to which the estimate applies. Table 9 provides base "a" and "b" parameters to be used for estimates in this file.

The factors provided in table 10 when multiplied by the base parameters for a given subgroup and type of estimate give the "a" and "b" parameters for that subgroup and estimate type for the specified reference period. For example, the base "a" and "b" parameters for total income of households are -0.0001168 and $10,623$, respectively.

For Wave 1 the factor for October 1985 is 4 since only 1 rotation of data is available. So, the "a" and "b" parameters for total household income in October 1985 based on Wave 1 are -0.0004672 and $42,492$, respectively. Also for Wave 1, the factor for the first quarter of 1986 is 1.2222 since 9 rotation months of data are available (rotations 1 and 4 provide 3 rotations months each, while rotations 2 and 3 provide 1 and 2 rotation months, respectively). So, the "a" and "b" parameters for total household income in the first quarter of 1986 are -0.0001428 and $12,983$, respectively for Wave 1.

The "a" and "b" parameters may be used to calculate the standard error for estimated numbers and percentages. Because the actual standard error behavior was not identical for all estimates within a group, the standard errors computed from these parameters provide an indication of the order of magnitude of the standard error for any specific estimate. Methods for using these parameters for computation of approximate standard errors are given in the following sections.

For those users who wish further simplification, we have also provided general standard errors in tables 11 through 14 for making estimates with the use of data from all four rotations. Note that these standard errors must be adjusted by a factor from table 9. The standard errors resulting from this simplified approach are less accurate. Methods for using these parameters and tables for computation of standard errors are given in the following sections.

Standard errors of estimated numbers.

The approximate standard error, s_x , of an estimated number of persons, households, families, unrelated individuals and so forth, can be obtained in two ways. Both apply when data from all four rotations are used to make the estimate. However, only the second method should be used when less than four rotations of data are available for the estimate. Note that neither method should be applied to dollar values.

It may be obtained by the use of the formula

$$s_x = fs \quad (1)$$

where f is the appropriate "f" factor from table 9, and s is the standard error on the estimate obtained by interpolation from table 11 or 12. Alternatively, s_x may be approximated by the formula

$$s_x = \sqrt{ax^2 + bx} \quad (2)$$

from which the standard errors in tables 11 and 12 were calculated. Here x is the size of the estimate and "a" and "b" are the parameters associated with the particular type of characteristic being estimated. Use of formula 2 will provide more accurate results than the use of formula 1.

Illustration.

Suppose SIPP estimates for Wave 1 of the 1986 panel show that there were 472,000 households with monthly household income above \$6,000. The appropriate parameters and factor from table 9 and the appropriate general standard error from table 11 are

$$a = -0.0001168 \quad b = 10,623 \quad f = 1.0 \quad s = 71,000$$

Using formula 1, the approximate standard error is

$$s_x = 71,000$$

Using formula 2, the approximate standard error is

$$\sqrt{(-0.0001168)(472,000)^2 + (10,623)(472,000)} \approx 70,600$$

Using the standard error based on formula 2, the approximate 90-percent confidence interval as shown by the data is from 359,000 to 585,000. Therefore, a conclusion that the average estimate derived from all possible samples lies within a range computed in this way would be correct for roughly 90% of all samples.

Standard Error of a Mean

A mean is defined here to be the average quantity of some item (other than persons, families, or households) per person, family, or household. For example, it could be the average monthly household income of females age 25 to 34. The standard error of a mean can be approximated by formula 3 below. Because of the approximations used in developing formula 3, an estimate of the standard error of the mean obtained from this formula will generally underestimate the true standard error. The formula used to estimate the standard error of a mean \bar{x} is

$$s_{\bar{x}} = \sqrt{\left(\frac{b}{y}\right) s^2} \quad (3)$$

where y is the size of the base, s^2 is the estimated population variance of the item and b is the parameter associated with the particular type of item.

SOURCE AND ACCURACY

The population variance s^2 may be estimated by one of two methods. In both methods we assume x_i is the value of the item for person i . To use the first method, the range of values for the item is divided into c intervals. The upper and lower boundaries of interval j are Z_{j-1} and Z_j , respectively. Each person is placed into one of c groups such that $Z_{j-1} < x_i \leq Z_j$.

The estimated population variance, s^2 , is given by the formula:

$$s^2 = \sum_{j=1}^c p_j m_j^2 - \bar{x}^2, \quad (4)$$

where p_j is the estimated proportion of persons in group j , and $m_j = (Z_{j-1} + Z_j) / 2$. The most representative value of the item in group j is assumed to be m_j . If group c is open-ended, i.e., no upper interval boundary exists, then an approximate value for m_c is

$$m_c = \frac{3}{2} Z_{c-1}.$$

The mean, \bar{x} , can be obtained using the following formula:

$$\bar{x} = \sum_{j=1}^c p_j m_j.$$

In the second method, the estimated population variance is given by

$$s^2 = \frac{\sum_{i=1}^n w_i x_i^2}{\sum_{i=1}^n w_i} - \bar{x}^2, \quad (5)$$

where there are n persons with the item of interest and w_i is the final weight for person i . The mean, \bar{x} , can be obtained from the formula

$$\bar{x} = \frac{\sum_{i=1}^n w_i x_i}{\sum_{i=1}^n w_i}.$$

Illustration

Suppose that based on Wave 1 data, the distribution of monthly cash income for persons age 25 to 34 during the month of January 1986 is given in table 7.

Table 7 Distribution of Monthly Cash Income Among Persons 25 to 34 Years Old

		Under \$300	\$600	\$900	\$1,200	\$1,500	\$2,000	\$2,500	\$3,000	\$3,500	\$4,000	\$5,000	\$6,000	
Total	\$300	to	to	to	to	to	to	to	to	to	to	to	and	
		\$599	\$899	\$1,199	\$1,499	\$1,999	\$2,499	\$2,999	\$3,499	\$3,999	\$4,999	\$5,999	over	
Thousands in interval	39,851	1371	1651	2259	2734	3452	6278	5799	4730	3723	2519	2619	1223	1493
Percent with at least as much as lower bound of interval	--	100.0	96.6	92.4	86.7	79.9	71.2	55.5	40.9	29.1	19.7	13.4	6.8	3.7

Using formula 4 and the mean monthly cash income of \$2,530 the approximate population variance, s^2 , is

$$s^2 = \left(\frac{1,371}{39,851} \right) (150)^2 + \left(\frac{1,651}{39,851} \right) (450)^2 + \dots + \left(\frac{1,493}{39,851} \right) (9,000)^2 - (2,530)^2 = 3,159,887.$$

Using formula 3, the appropriate base "b" parameter and factor from table 9, the estimated standard error of a mean \bar{x} is

$$s_{\bar{x}} = \sqrt{\left(\frac{8,596}{39,851,000} \right) (3,159,887)} = \$26$$

Standard error of an aggregate.

An aggregate is defined to be the total quantity of an item summed over all the units in a group. The standard error of an aggregate can be approximated using formula 6.

As with the estimate of the standard error of a mean, the estimate of the standard error of an aggregate will generally underestimate the true standard error. Let y be the size of the base, s^2 be the estimated population variance of the item obtained using formula (4) or (5) and b be the parameter associated with the particular type of item. The standard error of an aggregate is:

$$s_x = \sqrt{(b)(y)s^2} \quad (6)$$

SOURCE AND ACCURACY

Standard Errors of Estimated Percentages.

The reliability of an estimated percentage, computed using sample data for both numerator and denominator, depends upon both the size of the percentage and the size of the total upon which the percentage is based. Estimated percentages are relatively more reliable than the corresponding estimates of the numerators of the percentages, particularly if the percentages are 50 percent or more, e.g., the percent of people employed is more reliable than the estimated number of people employed. When the numerator and denominator of the percentage have different parameters, use the parameter (and appropriate factor) of the numerator. If proportions are presented instead of percentages, note that the standard error of a proportion is equal to the standard error of the corresponding percentage divided by 100.

There are two types of percentages commonly estimated. The first is the percentage of persons, families or households sharing a particular characteristic such as the percent of persons owning their own home. The second type is the percentage of money or some similar concept held by a particular group of persons or held in a particular form. Examples are the percent of total wealth held by persons with high income and the percent of total income received by persons on welfare.

For the percentage of persons, families, or households, the approximate standard error, $s_{(x,p)}$, of the estimated percentage p can be obtained by the formula

$$s_{(x,p)} = fs \quad (7)$$

when data from all four rotations are used to estimate p .

In this formula, f is the appropriate "f" factor from table 9 and s is the standard error of the estimate from table 13 or 14. Alternatively, it may be approximated by the formula

$$s_{(x,p)} = \sqrt{\frac{b}{x} (p) (100-p)} \quad (8)$$

from which the standard errors in tables 13 and 14 were calculated. Here x is the size of the subclass of social units which is the base of the percentage, p is the percentage ($0 < p < 100$), and b is the parameter associated with the characteristic in the numerator. Use of this formula will give more accurate results than use of formula 7 above and should be used when data from less than four rotations are used to estimate p .

For percentages of money, a more complicated formula is required. A percentage of money will usually be estimated in one of two ways. It may be the ratio of two aggregates:

$$p_I = 100 (X_A / X_N)$$

or it may be the ratio of two means with an adjustment for different bases:

$$p_I = 100 (\hat{p}_A \bar{x}_A / \bar{x}_N)$$

where x_A and x_N are aggregate money figures, \bar{x}_A and \bar{x}_N are mean money figures, and \hat{p}_A is the estimated number in group A divided by the estimated number in group N. In either case, we estimate the standard error as

$$s_I = \sqrt{\left(\frac{\hat{p}_A \bar{x}_A}{\bar{x}_N}\right)^2 \left[\left(\frac{s_p}{\hat{p}_A}\right)^2 + \left(\frac{s_A}{\bar{x}_A}\right)^2 + \left(\frac{s_B}{\bar{x}_N}\right)^2 \right]} \quad (9)$$

where s_p is the standard error of \hat{p}_A , s_A is the standard error of \bar{x}_A and s_B is the standard error of \bar{x}_B . To calculate s_p , use formula 8. The standard errors of \bar{x}_B and \bar{x}_A may be calculated using formula 3.

It should be noted that there is frequently some correlation between \hat{p}_A , \bar{x}_B , and \bar{x}_A . If these correlations are positive, then formula 9 will tend to overestimate the true standard error. If they are negative, underestimates will tend to result.

Illustration.

Suppose that, in the month of January 1986, 6.7 percent of the 16,812,000 persons in nonfarm households with a mean monthly household cash income of \$4,000 to \$4,999, were black. Using formula 8 and the "b" parameter of 11,565 and a factor of 1 for the month of January 1986 from table 9, the approximate standard error is

$$\sqrt{\frac{11,565}{(16,812,000)}} (6.7) (100-6.7) \approx 0.66 \text{ percent}$$

Consequently, the 90 percent confidence interval as shown by these data is from 5.6 to 7.8 percent.

Standard Error of a Difference.

The standard error of a difference between two sample estimates is approximately equal to

$$s_{(x-y)} = \sqrt{s_x^2 + s_y^2} \quad (10)$$

where s_x and s_y are the standard errors of the estimates x and y .

The estimates can be numbers, percents, ratios, etc. The above formula assumes that the correlation coefficient, r , between the characteristics estimated by x and y is zero. If r is really positive (negative), then this assumption will tend to cause overestimates (underestimates) of the true standard error.

Illustration.

Suppose that SIPP estimates show the number of persons age 35-44 years with monthly cash income of \$4,000 to \$4,999 was 3,186,000 in the month of January 1986 and the number of persons age 25-34 years with monthly cash income of \$4,000 to \$4,999 in the same time period was 2,619,000. Then, using parameters and factors from table 9 and formula 2, the standard errors of these numbers are approximately 164,000 and 149,000, respectively. The difference in sample estimates is 567,000 and, using formula 10, the approximate standard error of the difference is

$$\sqrt{(164,000)^2 + (149,000)^2} \approx 222,000$$

Suppose that it is desired to test at the 10 percent significance level whether the number of persons with monthly cash income of \$4,000 to \$4,999 was different for persons age 35-44 years than for persons age 25-34 years. To perform the test, compare the difference of 567,000 to the product $1.6 \times 222,000 = 355,200$. Since the difference is greater than 1.6 times the standard error of the difference, the data show that the two age groups are significantly different at the 10 percent significance level.

Standard Error of a Median.

The median quantity of some item such as income for a given group of persons, families, or households is that quantity such that at least half the group have as much or more and at least half the group have as much or less. The sampling variability of an estimated median depends upon the form of the distribution of the item as well as the size of the group. To calculate standard errors on medians, the procedure described below may be used.

SOURCE AND ACCURACY

An approximate method for measuring the reliability of an estimated median is to determine a confidence interval about it. (See the section on sampling variability for a general discussion of confidence intervals.) The following procedure may be used to estimate the 68-percent confidence limits and hence the standard error of a median based on sample data.

1. Determine, using either formula 7 or formula 8, the standard error of an estimate of 50 percent of the group;
2. Add to and subtract from 50 percent the standard error determined in step 1;
3. Using the distribution of the item within the group, calculate the quantity of the item such that the percent of the group owning more is equal to the smaller percentage found in step 2. This quantity will be the upper limit for the 68-percent confidence interval. In a similar fashion, calculate the quantity of the item such that the percent of the group owning more is equal to the larger percentage found in step 2. This quantity will be the lower limit for the 68-percent confidence interval;
4. Divide the difference between the two quantities determined in step 3 by two to obtain the standard error of the median.

To perform step 3, it will be necessary to interpolate. Different methods of interpolation may be used. The most common are simple linear interpolation and Pareto interpolation. The appropriateness of the method depends on the form of the distribution around the median. If density is declining in the area, then we recommend Pareto interpolation. If density is fairly constant in the area, then we recommend linear interpolation. Note, however, that Pareto interpolation can never be used if the interval contains zero or negative measures of the item of interest. Interpolation is used as follows. The quantity of the item such that "p" percent own more is

$$X_{pN} = \exp \left[\left(\frac{\ln \left(\frac{pN}{N_1} \right)}{\ln \left(\frac{N_2}{N_1} \right)} \right) \cdot \ln \left(\frac{A_2}{A_1} \right) \right] A_1 \tag{11}$$

If Pareto Interpolation is indicated and

$$X_{pN} = \left[\frac{pN - N_1}{N_2 - N_1} (A_2 - A_1) + A_1 \right] \tag{12}$$

If linear interpolation is indicated, where N is the size of the group,

- | | |
|-----------------|--|
| A_1 and A_2 | are the lower and upper bounds, respectively, of the interval in which X_{pN} falls. |
| N_1 and N_2 | are the estimated number of group members owning more than A_1 and A_2 , respectively. |
| exp | refers to the exponential function and |
| Ln | refers to the natural logarithm function. |

Illustration.

To illustrate the calculations for the sampling error on a median, we return to the same table 7. The median monthly income for this group is \$2,158. The size of the group is 39,851,000.

1. Using the formula 8, the standard error of 50 percent on a base of 39,851,000 is about 0.7 percentage points.
2. Following step 2, the two percentages of interest are 49.3 and 50.7.
3. By examining table 7, we see that the percentage 49.3 falls in the income interval from 2000 to 2499. (Since 55.5% receive more than \$2,000 per month, the dollar value corresponding to 49.3 must be between \$2,000 and \$2,500). Thus, $A_1 = \$2,000$, $A_2 = \$2,500$, $N_1 = 22,106,000$, and $N_2 = 16,307,000$.

In this case, we decided to use Pareto interpolation. Therefore, the upper bound of a 68% confidence interval for the median is

$$\$2,000 \exp \left[\left(\frac{\ln \left(\frac{(.493)(39,851,000)}{22,106,000} \right)}{\ln \left(\frac{16,307,000}{22,106,000} \right)} \right) \ln \left(\frac{2,500}{2,000} \right) \right] = \$2181$$

Also by examining table 7, we see that 50.7 falls in the same income interval. Thus, A_1 , A_2 , N_1 , and N_2 are the same. We also decided to use Pareto interpolation for this case. So the lower bound of a 68% confidence interval for the median is

$$\$2,000 \exp \left[\left(\frac{\ln \left(\frac{(.507)(39,851,000)}{22,106,000} \right)}{\ln \left(\frac{16,307,000}{22,106,000} \right)} \right) \ln \left(\frac{2,500}{2,000} \right) \right] = \$2136$$

Thus, the 68-percent confidence interval on the estimated median is from \$2136 to \$2181. An approximate standard error is

$$\frac{\$2181 - \$2136}{2} = \$23$$

Standard Errors of Ratios of Means and Medians.

The standard error for a ratio of means or medians is approximated by:

$$\frac{s_x}{y} = \sqrt{\left(\frac{x}{y} \right)^2 \left[\left(\frac{s_y}{y} \right)^2 + \left(\frac{s_x}{x} \right)^2 \right]} \quad (13)$$

where x and y are the means, and s_x and s_y are their associated standard errors. Formula 13 assumes that the means are not correlated. If the correlation between the population means estimated by x and y are actually positive (negative), then this procedure will tend to produce overestimates (underestimates) of the true standard error for the ratio of means.

SIPP DATA REVIEW: Panel 1987 Wave 2 - Education & Training History

INTRODUCTION

This report provides a review of data quality of the Wave 2 Education and Training History topical module from the 1987 panel of the Survey of Income and Program Participation (SIPP). The questions concern receipt of the highest degree beyond high school, the field in which the degree was awarded, and the dates during which schooling occurred. The training history section asks about participation in specific work training programs, as well as participation in general work training activities, when and where the training occurred, how long it lasted, and the source of payment for this training.

SAMPLE ATTRITION

A rectangular data file of the wave 2 education and training history data was constructed using the SIPPER program. The file contains 24,404 person records; the universe of interest for tabulation are those persons who have non-zero weights in the interview month, which is 22,909 cases. (In addition, there are 1 zero-weight cases who were interviewed - likely 200+ level persons.)

The number of households eligible for interviewing in wave 2 was 11,931. Of these, 11,135, or about 93%, were successfully interviewed. Within households there is also loss of persons. As with entire households, this loss may be due to refusals, or because a given individual has moved and cannot be followed. The loss of persons in interviewed households in wave 2 (for the interview month) was 1494 persons, or 6% of the eligible person population. This includes persons who may have been in sample for part of the wave, but who are out of sample by the interview month. (Another person has interview data, but also has a zero-weight for the interview month. Since the topical module is referenced to the interview month, calculating loss in terms of persons with a zero weight in that month is a reasonable method.) Table 1 shows the pattern of loss for several basic demographic factors. Tests for significant patterns of loss in the sample data from the prior wave are made using a chi-square test that has been adjusted for sample design. (The simple adjustment is to divide the calculated chi-square by 3.) Using this method we find significant loss for persons of Hispanic origin, young persons, non-Whites, and those with 9-12 years of schooling.

ITEM AND MODULE NONRESPONSE

In addition to the loss of data caused by noninterviewed households and persons, information is also lost because of simple nonresponse. Persons may not respond for a variety of reasons, and nonresponse may occur for the entire topical module, or only for selected items. In Wave 2, 930 of the non-zero weight persons, about 4% of the "active" sample did not respond to the entire module. Of these, 572 (61%) were in fact Type 2 noninterview cases, that is, they were not interviewed at all (either because they refused, or an interview could not, for whatever reason, be arranged). Table 2 summarizes the distribution of module nonrespondents by several basic demographics. Total nonresponse appears to have been somewhat more common among nonwhites, Hispanics, younger persons, males, and persons with 9-12 years of schooling.

While total module nonrespondents must have some data created for them, the overall level of imputation and editing is reasonable. In many situations, a "complete" case may amount to only several answered items. In terms of imputations, overall rates are quite low. However, in this module some instances of missing data are not handled with an imputation, but with a structured edit procedure, which contributes to the low imputation rate. Table 3 shows data for both imputed and some edited fields. As can be seen, imputation levels are for the most part low, but changes or assignment of values due to editing occur in larger magnitude for some items. Some items, such as dates, are especially prone to edit modification, either because they were not recorded at all, or because the sequence of dates in this section resulted in inconsistent answers (e.g., receiving a highest degree substantially before a lower degree). One problem in collecting multiple date data such as these is determining which items are "true" when the date sequences are unreasonable. We have used a combination of the actual dates reported and other related information (such as years of schooling attended) to come up with edited sequences where necessary.

SURVEY ESTIMATES

The comparison of weighted survey estimates to estimates derived from other sources acts as another check of the general quality of the data. Sample loss and nonresponse notwithstanding, if editing, imputation and weighting procedures are properly applied the final weighted data should compare favorably, at least in univariate or bivariate context, with other known estimates of the same phenomenon. Consideration is given here to several of the main substantive items collected in the module.

1. Educational Attainment/Degrees

Since the module is about educational history, one basic aspect of these data should be the detailing of the educational attainment structure of the population. In the SIPP there are two sources of these data: the control card, which collects the traditional "highest grade or year of school completed" item, and the topical module, which asks about the highest degree beyond a high school diploma that the individual has earned. The table below compares these two estimates with one derived from the March 1987 Current Population Survey, based also on the traditional "years completed" item. The table shows that there is a high degree of correspondence (in proportionate terms) between the 3 sources, but it is not exact. Part of the variation, of course, is sample and response variance, but the larger levels of difference (notably for degrees beyond a Bachelor's) is attributable to the fact that years of schooling do not map neatly into degrees of these types.

Comparison of Educational Attainment Distributions (persons 15+)

Level	SIPP Highest Degree		SIPP "years"	March 87 CPS	
PhD.	927				
Prof.	1723	8892 (4.7)	13992 (7.4)	12728 (6.8)	C5+

LT HS	50265	(26.8)	53673 (28.6)	53113 (28.4)	LT 12

(Numbers in thousands)

The next table compares the number of degrees (actually, "highest degrees") obtained in the period 1982-1986 to the estimates as calculated from the Department of Education administrative estimates. There are multiple reasons why these estimates should not be exactly the same (e.g., timing and definitional differences, sample variation), however, relative magnitude and proportion should be preserved. In fact, this is what the data show. Apart from a serious difference in the Associate level (which may be accounted for in part by the SIPP inclusion of an additional category of "vocational certificate or diploma"), the distributions are strikingly similar. Of course, the SIPP data cannot be expected to yield very reliable time-

specific estimates, perhaps even for large intervals such as 5-10 years, but this table indicates the data are not widely variant for this 5-year period.

Degrees Awarded 1982-1986

Degree	SIPP Estimate		Dept. of Education	
PhD.	157	(1.8)	165	(1.8)
Prof.	261	(2.9)	369	(4.1)
Mas.	1305	(14.7)	1446	(15.9)
Bach.	4749	(53.3)	4864	(53.5)
Assoc.	1859	(20.9)	2244	(24.7)
Voc.	571	(6.4)	---	

(Numbers in thousands)

2. Degree Fields

The SIPP also asks respondents to report the field in which their highest degree was earned. Respondents are asked to choose from a list of 20 field categories the one which best identifies their field of study. The distributions of fields by degrees yield many estimates which are relatively small. Given the sampling variance of the estimates, one could not attempt to make reasonable comparisons to other known estimates, if they in fact existed. However, the general proportionate distribution of fields and degrees seems reasonable when compared to those estimated from the same questions in the 1984 and 1986 panels of SIPP. In addition, looking within a specific field or degree, cells of large magnitude make intuitive sense; most professional degrees are reported by persons who studied the field of law, medicine or dentistry; most vocational certificate or diploma recipients report a field of business, nursing, technical health or "vocational studies." In short, the degree/field data do not appear "unreasonable."

3. Job Training

Job training in this module is ascertained through the use of a very general question which asks, "Has ... ever received training designed to help find a job, improve job skills or learn a new job?" As one might expect, this question elicits a large number of positive responses among the adult population, that is, a weighted estimate of approximately 38 million persons ages 16 to 64. Given that this question is so general, one should accept that these data may be useful in providing a general image of work training, but not the fine detail that one would expect from a survey solely dedicated to this topic or, more importantly, to any of the specific programs that are mentioned in the follow-up question.

Five specific work training sponsors are identified. Two of these, CETA and JTPA, represent the same program, since CETA was succeeded by JTPA. The 1987 and 1986 SIPP and "administrative" estimates (numbers in 1000's) for these programs are:

	SIPP 87	SIPP 86	Administrative Est.
JTPA	1,192	1,042	1,900
CETA	2,063	1,851	20-25,000
WIN	543	545	2,000
Trade Adjustment	85	139	88
Vets Training	1,115	1,316	485 - 1,710

There are some large differences between the estimates from SIPP and those obtained from administrative sources. The reasons for this draw into question both the SIPP and the administrative figures. Generally, the agencies administering these programs do not have a single, handy number which summarizes the number of participants. More likely, they have a series of estimates, of unknown quality, of the many different "subprograms" which may be authorized (but not known) under one generic label. Often, these programs are administered at a state (or lower) level, with the name(s) of the actual programs determined at that point. In the case of JTPA for example, the total number of specific named programs operating under the enabling legislation is at least several hundred, and is likely more than one thousand in number (this was the conclusion of the analysts I spoke with at the Dept. of Labor). CETA is believed to have had between 20 and 25 million participants, but there is no data on how many of these persons actually received any kind of "job training", or how many knew they were a part of the CETA program. In a context such as this it is well beyond the scope of the administering agency to have a good count, but more importantly, it is a random guess as to whether or not any actual participant of this program will know that he/she participated in it. For some of these programs, participation is "automatic" when the individual applies for unemployment, for example, and is sent to a one or two-day lecture on "tips on job-hunting" before becoming eligible for benefits. While the "administrative" estimate records this person, the person themselves does not even know it happened.

Similarly, many programs do more than provide "job training", but have no way of differentiating their counts of participants. This to some extent characterizes the discrepancies in the WIN estimates. There are about 1.5 million WIN participants PER YEAR, and somewhere between 10 and 50% get "some kind" of training. How does the SIPP estimate compare? One cannot really say, because the comparison is fallacious. Other programs, such as Trade Adjustment Assistance, train far too few people to even be included in this section, and should be dropped as specific response categories.

Estimates of Veteran's training are also somewhat unclear. Depending upon which program one concentrates on, the SIPP estimate may be too high or too low. The administrative estimate of a half to one and a half million is based on several different programs, any of which might reasonably define "work training". Not included is the estimate of persons who attend school (of many different types) under the auspices of the GI Bill or some other Veteran's aid.

Analysis and use of the work training data needs to recognize that these are seriously limited and distorted in certain respects. Having said this, it is not the case that the data have no use. Analysis of individuals who report some kind of program training (whatever it was), or who report that it was paid for by the government, may tell us important things about this subpopulation, especially with respect to them in the context of other activities. But researchers should avoid the desire to produce estimates and analyses of specific training programs from these data.

SUMMARY

The data from this module appear, in general terms, to be reasonable in terms of its weighted distributions. Users of these data should take note of two characteristics which may advise caution on their part, however. First, many of the dates for education events have been modified because of the editing consistency procedures. This is necessary because so many dates have been left blank, or because respondents have answered "don't know". We have avoided imputation in these cases, since event dates must be constrained by other surrounding dates; attempts to build an accurate imputation matrix would result in a huge table with few "donor" cells. Thus, the editing procedure achieves in essence what the detailed imputation would; i.e., donated dates based on the value of other relevant criteria. Nevertheless, while date consistency is achieved, a large proportion of cases will exhibit similar timing patterns in the dating of events.

The second problem in these data concerns the work training section, and the reports of specific sponsors of such training. SIPP estimates are widely discrepant of other estimates, but there is no reason to believe that the other estimates are any more valid than those obtained in the SIPP. The very general nature of the section on work training makes these data useful only in the most general of terms. Analysis of specific programs should not be undertaken with these data.

Subject: 1987 SIPP Wave 2 Migration History Topical Module

The 1987 SIPP Wave 2 data from the Migration History topical module appear internally consistent, have reasonable imputation rates, and provide acceptable estimates of number of movers. All items are internally consistent. The imputation rates are 5 percent or lower except for two items on month and year of most recent move (9.0 percent) and of the preceding move (11.7 percent). The file does not allow us to determine whether the imputation was done for only the month, only the year, or for both. Imputation of month of move would have a less serious effect on the usefulness of the data for most purposes than would imputation of year of move. I have asked that for future topical modules the month and year of moves be given separate imputation flags. The imputations for the two moving date items appear to be distributed equitably among the possible responses and should not bias the data.

The estimates of number of recent movers and rate of moving derived from the 1987 SIPP data appear reasonable in comparison with estimates from the Current Population Survey. The number of persons 15 years and older who changed residence between April 1986 and March 1987 was 32,853,000 based on data from the 1987 SIPP module. The corresponding estimate from the CPS was 33,462,000 (see table A). The estimated mobility rate (proportion of persons moving) for 1986-87 was 17.5 percent from the SIPP and 17.9 percent from the CPS. The estimates of number of movers and rate of moving from the two data sources are not statistically different at the 90 percent confidence level.

The sex and age compositions of recent movers from the two surveys are also similar (see table B). The SIPP estimates of 49.2 percent males and 50.8 percent females among recent movers 15 years and older are not statistically different, at the 90 percent confidence level, from the CPS estimates of 49.3 percent males and 50.7 percent females. The proportions of movers by age group also correspond fairly closely; there are no statistically significant differences in proportions of recent movers from the two surveys for the age-sex groups shown in table B.

The geography of recent moves from the SIPP cannot be strictly compared with the CPS estimates because about 11 percent of the SIPP movers in the CPS reference period of April 1986 to March 1987 also made a later move (after March 1987). Geographical information in the SIPP module is only obtained for the most recent move, in this case the move after March 1987, and therefore is unavailable for 11 percent of the group being compared to the CPS. A rough evaluation of type of move, i.e., long or short distance or from abroad, can be made by comparing the data for the 89 percent of SIPP movers whose last move was made during the CPS reference period with that of the CPS movers. Percentage distributions of type of move for the two groups are shown in table C.

The geography of moves from the two surveys is not as similar as the number, age, and sex of recent movers. About 71 percent of recent moves reported in the SIPP were local moves (intracounty) compared with 61 percent reported in the CPS. The estimates of longer distance moves (different county of same state, different state, and from abroad) were lower in the SIPP than in the CPS. The proportions of movers by each type of move shown in table C are statistically different at the 90 percent confidence level for the two surveys. A partial explanation for the differences may lie in the procedures used to determine type of move. The SIPP sample is simply asked whether the previous residence was in the same county, same state but different county, etc. CPS respondents are asked to provide the city and state or foreign country of previous residence and the type of move is determined by a coding operation. SIPP attrition may offer additional explanation for the higher proportion of local movers in the SIPP sample, since the SIPP probably does a better job of retaining short-distance movers than long-distance movers.

The items on the topical module that do not relate to recent migration, such as residence in other states and countries and naturalization, cannot be readily compared with independent sources. They appear reasonable, however, as well as being internally consistent and having low imputation rates.

Table A. Recent Movers from the SIPP and CPS

	1987 SIPP Wave 2 Unweighted	Weighted (000's)	March 1987 CPS Weighted (000's)
Persons, 15+	22910	187636	186688

Subject: Review of SIPP 1987 Panel, Wave 2, Fertility
 History Module

Fertility data from the 1987 Panel, Wave 2, have deteriorated in quality from the preceding 1986 Panel. Nonresponse rates for ever-married women in the childbearing years for the children ever born item increased from about 2 percent in 1986 to 5 percent in 1987 while the corresponding increase for never-married women was from 8 to 11 percent. Compared with data from both Vital Statistics and the June 1987 CPS, SIPP underreported births to Blacks and out-of-wedlock births for the year preceding the survey.

THE ITEMS

Children ever born. While nonresponse rates for the children ever born item in SIPP increased from the 1986 to the 1987 panel, distributions are still at an acceptable level compared with CPS data (table 1). Nonresponse rates for single women in SIPP are unusually high relative to the CPS and warrant an investigation of reports from the field if any problems have appeared for the fertility items asked of single women.

First births. Data in table 2 show the estimated number of first births occurring between 1960 and 1986 from the SIPP 1987 Panel and from annual Vital Statistics reports. SIPP data were categorized by the mother's nativity to examine any effects of including alien women in the SIPP estimates who may have born their first child overseas, and hence, would not have had their births recorded in the vital registration system.

For periods before 1970, SIPP data which include births to native born women and to aliens who arrived in the U.S. before they had their first birth, match up very well with Vital Statistics estimates (about 5.6 million births in 1960-64 and 6.2 million in 1965-69). Since 1970, SIPP estimates of native born births closely agree with Vital Statistics counts; however, if one were to include in the quinquennial SIPP totals births to aliens who arrived in the U.S. before they had their children (which would be included in the vital registration system) then SIPP estimates for first births would appear to high. This suggests that an unusually high number of recent (post 1970) immigrants in the SIPP may be back dating their year of arrival in the U.S. or moving up their year of first birth so their child appears to be born in America. This did not happen in the 1986 Panel, i.e., the addition of births to aliens arriving in the U.S. before their children's births brought the SIPP estimates up the U.S. levels reported by Vital Statistics.

Current Fertility. Table 3 presents data from SIPP on the number of women who had a birth in the 12-month period prior to the survey date. Comparable data are also shown for births occurring in the calendar year 1987 from Vital Statistics records and for the 12-month period ending in June 1987 from the June 1987 CPS.

The only noticeable differences in the distribution of the mothers by their socioeconomic characteristics lie in the apparent underestimation in the SIPP of out-of-wedlock births and births to Black women. Considerably higher estimates of births to Hispanic women are reported by Vital Statistics because States examined for analysis by NCHS disproportionately represent States in the U.S. with relatively high concentrations of Hispanics.

Table 3. (Continued)

Note: SIPP and CPS data are for women 18 to 44 years old at interview date. Vital Statistics data are for women 18 to 44 years old at the birth of their child.

NA: Not available.

- a Refers to second and higher order births.
- b Refers to women 18-24 years old.

- 1/ Refers to births occurring in calendar year 1987.
- 2/ Refers to births occurring within 1 year of interview date. Interviews conducted June-September 1987 for SIPP and June 1987 for CPS.
- 3/ Vital statistics data refer to age at birth of child. SIPP and CPS data refer to age at survey date. Distributions for all three data sets are based on women age 18 to 44 years old.
- 4/ Vital Statistics data refer to marital status of mother at time of child's birth. SIPP and CPS data refer to marital status of mother at survey date. Currently married includes married, spouse absent (including separated).
- 5/ Vital Statistics data refer to educational attainment of mother at time of child's birth for 47 States and D.C.; SIPP and CPS data refer to educational attainment of mother at survey date.
- 6/ Status at survey date.
- 7/ Vital Statistics data based on 23 States and D.C.; not stated reports for these States were not imputed.

Subject: Review of the SIPP 1987 Panel Wave 2 Household
Relationship Matrix Data

Attached are the results of our evaluation of the quality of the data from the SIPP 1987 panel, wave 2 detailed relationship matrix. The results are essentially the same as those for the 1984 panel, wave 8; the 1985 panel, wave 4; and the 1986 panel wave 2. In brief, they indicate that the quality of the data - at least in the macro-sense - is good.

The percent distribution of specified relationships to the person in column one (usually the householder) has remained very consistent over the four waves that this topical module has appeared on (see table 1). All of these SIPP topical modules in turn are consistent with the relationship to householder data reported in the 1980 Census. The degree of stability in these results strongly suggests that the SIPP data are of high quality.

The parent-child relationships reported in the topical module are also quite consistent between each of the SIPP waves (see table 2). They, in turn, closely follow the pattern displayed by data derived from the June 1980 Current Population Survey. This becomes even more apparent if the unknowns are distributed proportionately to the knowns (see table 3).

Table 4 shows the proportions male of final edited values for indicated relationships to householder for the 1980 Census and to the person in column one (again - usually the householder) for SIPP. These data do bounce around a bit but the three-wave means are pretty close to the 1980 Census proportions male by relationship. "Spouse" is the one category which varies noticeably between the Census and the three-wave SIPP mean (3.7 percent versus 7.6 percent). This is not something to be concerned about, however. For one thing, although the person in column one is usually the householder, they are not always the householder. Therefore, one would expect that there might be more women listed in column one than if it was restricted to just householders. It logically follows then that there would be more male spouses of persons in column one than male spouses of householders.

This evaluation is preliminary in nature. No statistical testing has been done and therefore this review does not necessarily meet the statistical standards required of Census Bureau publications.

EMPIRICAL RESULTS FOR EVALUATION OF RELATIONSHIP MATRIX DATA FROM WAVE 2
OF 1987 SIPP PANEL

1. Proportionate distribution of final edited values for indicated relationships to householder (1980 census) or person in column 1 (SIPP):

Relationship	1980 census	1984 wave 8	1985 wave 4	1986 wave 2	1987 wave 2
Total	100.0	100.0	100.0	100.0	100.0
Spouse	34.7	33.5	33.6	33.8	34.9
Child	54.2	53.1	52.3	53.5	53.4
Grandchild	1.9	2.4	2.3	2.3	2.2
Parent	0.9	2.1	1.9	1.5	1.4
Child-in-law	0.4	0.3	0.4	0.3	0.3
Sibling	1.4	1.3	1.2	1.3	1.0
Other relative	1.9	2.2	1.7	1.9	1.7
Nonrelative	4.2	3.7	5.0	4.4	4.2
Reported code edited out ('98')	0.0	1.3	1.3	0.9	0.9

2. Proportionate distribution of final edited values for type of parent-child relationship for June 1980 CPS and SIPP:

Type of parent-child relationship	June 1980 CPS	1984 wave 8	1985 wave 4	1986 wave 2	1987 wave 2
Total	100.0	100.0	100.0	100.0	100.0
Natural child	91.7	86.6	86.9	88.6	89.4
Stepchild	5.6	4.2	4.3	4.3	4.2
Adopted child	2.5	1.7	1.8	1.8	1.7
Foster child	0.4	0.4	0.3	0.2	0.3
Unknown	0.2	6.9	6.7	5.1	4.5

3. Proportionate distribution of final edited values for type of parent-child relationship for June 1980 CPS and SIPP, where the unknowns are distributed proportionally to the knowns:

Type of parent-child relationship	June 1980 CPS	1984 wave 8	1985 wave 4	1986 wave 2	1987 wave 2
Total	100.0	100.0	100.0	100.0	100.0
Natural child	91.9	93.2	93.1	93.4	93.6
Stepchild	5.6	4.5	4.6	4.5	4.4
Adopted child	2.5	1.8	1.9	1.9	1.7
Foster child	0.4	0.4	0.3	0.2	0.3

4. Proportions male of final edited values for indicated relationships to householder (1980 census) or person in column 1 (SIPP):

Relationship	1980 census	1984 wave 8	1985 wave 4	1986 wave 2	1987 wave 2	Mean 85-86-87
Child	54.2	51.5	51.5	51.9	52.0	51.8
Sibling	47.4	53.3	42.3	51.5	49.2	47.7
Grandchild	52.3	53.4	48.4	54.2	49.5	50.7
Spouse	3.7	11.0	8.3	7.0	7.6	7.6
Parent	30.4	21.1	35.0	31.8	27.4	31.4
Child-in-law	51.3	52.2	49.3	49.1	45.0	47.8

Source for 1980 census data, June 1980 CPS data, 1984 wave 8 and 1985 wave 4 SIPP data is a memorandum from Donald J. Hernandez to Arthur J. Norton dated May 23, 1988.

Subject: Review of the SIPP 1987 Panel Wave 2 Marital
 History Data

The numbers of marriages by year of marriage reported in wave 2 of the 1987 panel look, in general, very reasonable when compared to the vital records from National Center for Health Statistics (NCHS) (see table 1). Figures for 1965, 1981, and 1982 as reported in wave 2 of the 1987 panel do appear to be somewhat low when compared to the vital records. Data from the June 1985 Current Population Survey (CPS) are shown in table 1 for comparison purposes.

Divorces by year of divorce from wave 2 of the 1987 panel are generally lower than those reported in the vital records from NCHS (see table 2). This trend toward underreporting of divorces also occurred in the three earlier SIPP data sets and well as in the June 1985 CPS.

Year of marriage in wave 2 of the 1987 panel was allocated 11 percent of the time for males and 7 percent of the time for females. These rates are comparable to the allocation rates for wave 2 of the 1986 panel (10 percent for males and 7 percent for females). The year of first marriage allocation rates for wave 2 of the 1987 panel look reasonable (see table 3). They are similar, in general, to the rates for the three earlier SIPP data sets.

The month of marriage estimates for 1984, 1985, and 1986 from SIPP bounce around quite a bit in comparison to the NCHS vital records by month (see table 4). Month of marriage and month of divorce data should probably not be used by themselves, but rather only to calculate derived measures such as length of marriage and interval between first divorce and second marriage.

The number of times married estimates from wave 2 of the 1987 panel of SIPP appear to be reasonable, in general, both when compared to the estimates from the earlier SIPP panels and to the estimates from the June 1985 marital history supplement to the CPS (see table 5).

The distribution and numbers of persons by current marital status from wave 2 of the 1987 panel also look quite reasonable (see table 6). The estimated number of persons who are currently divorced appears to be a little high when it is compared to the March 1987 CPS estimate (14,533,000 versus 13,635,000). The comparable estimate from 1986 wave 2 (14,258,000) also looked high in comparison to the March 1986 CPS estimate (13,555,000).

This evaluation is preliminary in nature. No statistical testing has been done and therefore this review does not necessarily meet the statistical standards required of Census Bureau publications.

APPENDIX A-1

Income Source Code List

Code Income Sources

- 1 - Social Security
- 2 - U.S. Government Railroad Retirement pay
- 3 - Federal Supplemental Security Income (SSI)
- 5 - State unemployment compensation
- 6 - Supplemental Unemployment Benefits
- 7 - Other unemployment compensation (Trade Adjustment Act benefits, strike pay, other)
- 8 - Veterans compensation or pensions
- 10 - Worker's compensation
- 12 - Employer or union temporary sickness policy
- 13 - Payments from a sickness, accident or disability insurance policy purchased on your own
- 20 - Aid to Families with Dependent Children (AFDC, ADC)
- 21 - General assistance or General relief
- 23 - Foster child care payments
- 24 - Other welfare
- 25 - WIC (Women, Infants and Children) Nutrition Program
- 27 - Food stamps
- 28 - Child support payments
- 29 - Alimony payments
- 30 - Pension from company or union
- 31 - Federal Civil Service or other Federal civilian employee pensions
- 32 - U.S. Military retirement pay
- 34 - State government pensions
- 35 - Local government pensions
- 36 - Income from paid-up life insurance policies or annuities
- 37 - Estates and trusts
- 38 - Other payments for retirement, disability or survivor
- 40 - G.I. Bill/VEAP education benefits
- 41 - Other VA educational assistance
- 50 - Income assistance from a charitable group
- 51 - Money from relatives or friends
- 52 - Lump sum payments
- 53 - Income from roomers or boarders
- 54 - National Guard or Reserve pay
- 55 - Incidental or casual earnings
- 56 - Other cash income not included elsewhere
- 75 - Categories combined and recoded for confidentiality reasons
 - State Administered Supplemental Security Income (old code 4)
 - Black lung payments (old code 9)
 - State temporary sickness or disability benefits (old code 11)
 - Indian, Cuban, or Refugee Assistance (old code 22)
 - National Guard or Reserve Force retirement (old code 33)

SIPP RECTANGULAR FILES

Code Asset List

- 100 - Regular/passbook savings accounts in a bank, savings and loan or credit union
- 101 - Money market deposit accounts
- 102 - Certificates of Deposit or other savings certificates
- 103 - NOW, Super NOW or other interest earning checking accounts
- 104 - Money market funds
- 105 - U.S. Government securities
- 106 - Municipal or corporate bonds
- 107 - Other interest-earning assets
- 110 - Stocks or mutual fund shares
- 120 - Rental property
- 130 - Mortgages
- 140 - Royalties
- 150 - Other financial investments

Code Special Indicators

- 171 - Disabled
- 172 - Medicare
- 173 - Medicaid
- 174 - U.S. Saving Bonds (E, EE)
- 175 - College Work Study
- 176 - PELL Grant
- 177 - Supplemental Educational Opportunity Grant (SEOG)
- 178 - National Direct Student Loan (NSL)
- 179 - Guaranteed Student Loan
- 180 - JTPA Training
- 181 - Employer assistance
- 182 - Fellowship/Scholarship
- 183 - Other financial aid
- 200 - VA disability rating of 100%
- 201 - VA disability of less than 100%

APPENDIX A-2

Income Sources Included in Monthly Cash Income

Earnings from Employment

Wages and salaries
Nonfarm self-employment income
Farm self-employment income

Income from Assets (Property Income)

Regular/passbook savings accounts in a bank, savings and loan or credit union
Money market deposit accounts
Certificates of Deposit or other savings certificates
NOW, Super NOW or other interest-earning checking accounts
Money market funds
U.S. Government securities
Municipal or corporate bonds
Other interest-earning assets
Stocks or mutual fund shares
Rental property
Mortgages
Royalties
Other financial investments

Other Income Sources

Social Security
U.S. Government Railroad Retirement pay
Federal Supplemental Security Income (SSI)
State Administered Supplemental Security Income
State unemployment compensation
Supplemental Unemployment Benefits
Other unemployment compensation (Trade Adjustment Act benefits, strike pay, other)
Veterans compensation or pensions
Black lung payments
Worker's compensation
State temporary sickness or disability benefits
Payments from a sickness, accident or disability insurance policy purchased on your own
Aid to Families with Dependent Children (AFDC, ADC)
General Assistance or General Relief
Indian, Cuban, or Refugee Assistance
Foster child care payments
Other welfare
Child support payments
Alimony payments
Pension from company or union
Federal Civil Service or other Federal civilian employee pensions
U.S. Military retirement pay
National Guard or Reserve Forces retirement
State government pensions
Local government pensions
Income from paid-up life insurance policies or annuities
Estates and trusts

SIPP RECTANGULAR FILES

Other payments for retirement, disability or survivor benefits
G.I. Bill/VEAP education benefits
Income assistance from a charitable group
Money from relatives or friends
Lump sum payments
Income from roomers or boarders
National Guard or Reserve pay
Incidental or casual earnings
Other cash income not included elsewhere

APPENDIX A-3

Sources of Means-Tested Benefits Covered in SIPP

Cash Benefits

Federal Supplemental Security Income (SSI)
State Administered Supplemental Security Income
Veterans' pensions
Aid to Families with Dependent Children (AFDC, ADC)
General Assistance or General Relief
Indian, Cuban, or Refugee Assistance
Other welfare
Foster child care payments

Noncash Benefits

Food Stamps
Special Supplemental Food Program for Women, Infants, and Children (WIC)
Low-Income Home Energy Assistance
Medicaid
Free or reduced price school lunches
Free or reduced price school breakfasts
Public or subsidized rental housing

APPENDIX A-4

1980 Census of Population Occupation Classification System

(The numbers in parentheses refer to the 1980 Standard Occupational Classification code equivalents. Pt means part. N.e.c. means not elsewhere classified.)

MANAGERIAL AND PROFESSIONAL SPECIALTY OCCUPATIONS

1980 Code	Executive, Administrative, and Managerial Occupations
003	Legislators (111)
004	Chief executives and general administrators, public administration (112)
005	Administrators and officials, public administration (1132-1139)
006	Administrators, protective services (1131)
007	Financial managers (122)
008	Personnel and labor relations managers (123)
009	Purchasing managers (124)
013	Managers, marketing, advertising, and public relations (125)
014	Administrators, education and related fields (128)
015	Managers, medicine and health (131)
016	Managers, properties and real estate (1353)
017	Postmasters and mail superintendents (1344)
018	Funeral directors (pt 1359)
019	Managers and administrators, n.e.c. (121, 126, 127, 132-139, exc. 1344, 1353, pt 1359)
	Management related occupations
023	Accountants and auditors (1412)
024	Underwriters (1414)
025	Other financial officers (1415, 1419)
026	Management analysts (142)
027	Personnel, training, and labor relations specialists (143)
028	Purchasing agents and buyers, farm products (1443)
029	Buyers, wholesale and retail trade except farm products (1442)
033	Purchasing agents and buyers, n.e.c. (1449)
034	Business and promotion agents (145)
035	Construction inspectors (1472)
036	Inspectors and compliance officers, exc. construction (1473)
037	Management related occupations, n.e.c. (149)

Professional Specialty Occupations

Engineers, Architects, and Surveyors

043	Architects (161)
	Engineers
044	Aerospace (1622)
045	Metallurgical and materials (1623)
046	Mining (1624)
047	Petroleum (1625)
048	Chemical (1626)
049	Nuclear (1627)
053	Civil (1628)
054	Agricultural (1632)
055	Electrical and electronic (1633, 1636)
056	Industrial (1634)
057	Mechanical (1635)

SIPP RECTANGULAR FILES

058	Marine and naval architects (1637)
059	Engineers, n.e.c. (1639)
063	Surveyors and mapping scientists (164)
	Mathematical and Computer Scientists
064	Computer systems analysts and scientists (171)
065	Operations and systems researchers and analysts (172)
066	Actuaries (1732)
067	Statisticians (1733)
068	Mathematical scientists, n.e.c. (1739)
	Natural Scientists
069	Physicists and astronomers (1842, 1843)
073	Chemists, except biochemists (1845)
074	Atmospheric and space scientists (1846)
075	Geologists and geodesists (1847)
076	Physical scientists, n.e.c. (1849)
077	Agricultural and food scientists (1853)
078	Biological and life scientists (1854)
079	Forestry and conservation scientists (1852)

199	Athletes (34)

TECHNICAL, SALES, AND ADMINISTRATIVE SUPPORT OCCUPATIONS

Technicians and Related Support Occupations

Health Technologists and Technicians

- 203 Clinical laboratory technologists and technicians (362)
- 204 Dental hygienists (363)
- 205 Health record technologists and technicians (364)
- 206 Radiologic technicians (365)
- 207 Licensed practical nurses (366)
- 208 Health technologists and technicians, n.e.c. (369)

Technologists and Technicians, Except Health

Engineering and Related Technologists and Technicians

- 213 Electrical and electronic technicians (3711)
- 214 Industrial engineering technicians (3712)
- 215 Mechanical engineering technicians (3713)
- 216 Engineering technicians, n.e.c. (3719)
- 217 Drafting occupations (372)
- 218 Surveying and mapping technicians (373)

Science Technicians

- 223 Biological technicians (382)
- 224 Chemical technicians (3831)
- 225 Science technicians, n.e.c. (3832, 3833, 384, 389)

Technicians; Except Health, Engineering, and Science

- 226 Airplane pilots and navigators (825)
- 227 Air traffic controllers (392)
- 228 Broadcast equipment operators (393)
- 229 Computer programmers (3971, 3972)
- 233 Tool programmers, numerical control (3974)
- 234 Legal assistants (396)
- 235 Technicians, n.e.c. (399)

Sales Occupations

- 243 Supervisors and proprietors, sales occupations (40)
- Sales Representatives, Finance and Business Services

- 253 Insurance sales occupations (4122)
- 254 Real estate sales occupations (4123)
- 255 Securities and financial services sales occupations (4124)
- 256 Advertising and related sales occupations (4153)
- 257 Sales occupations, other business services (4152)

Sales Representatives, Commodities Except Retail

- 258 Sales engineers (421)
- 259 Sales representatives, mining, manufacturing, and wholesale (423, 424)

Sales Workers, Retail and Personal Services

- 263 Sales workers, motor vehicles and boats (4342, 4344)
- 264 Sales workers, apparel (4346)
- 265 Sales workers, shoes (4351)
- 266 Sales workers, furniture and home furnishings (4348)
- 267 Sales workers; radio, TV, hi-fi, and appliances (4343, 4352)
- 268 Sales workers, hardware and building supplies (4353)
- 269 Sales workers, parts (4367)
- 274 Sales workers, other commodities (4345, 4347, 4354, 4356, 4359, 4362, 4369)
- 275 Sales counter clerks (4363)
- Q(276) Cashiers (4364)
- 277 Street and door-to-door sales workers (4366)

- 278 News vendors (4365)
- Sales Related Occupations
- 283 Demonstrators, promoters and models, sales (445)
- 284 Auctioneers (447)
- 285 Sales support occupations, n.e.c. (444, 446, 449)

Administrative Support Occupations, Including Clerical

- Supervisors, Administrative Support Occupations
- 303 Supervisors, general office (4511, 4513, 4514, 4516, 4519, 4529)
- 304 Supervisors, computer equipment operators (4512)
- 305 Supervisors, financial records processing (4521)
- 306 Chief communications operators (4523)
- 307 Supervisors; distribution, scheduling, and adjusting clerks (4522, 4524-4528)
- Computer Equipment Operators
- 308 Computer operators (4612)
- 309 Peripheral equipment operators (4613)
- Secretaries, Stenographers, and Typists
- R(313) Secretaries (4622)
- 314 Stenographers (4623)
- 315 Typists (4624)
- Information Clerks
- 316 Interviewers (4642)
- 317 Hotel clerks (4643)
- 318 Transportation ticket and reservation agents (4644)
- 319 Receptionists (4645)
- 323 Information clerks, n.e.c. (4649)
- Records Processing Occupations, Except Financial
- 325 Classified-ad clerks (4662)
- 326 Correspondence clerks (4663)
- 327 Order clerks (4664)
- 328 Personnel clerks, except payroll and timekeeping (4692)
- 329 Library clerks (4694)
- 335 File clerks (4696)
- 336 Records clerks (4699)
- Financial Records Processing Occupations
- S(337) Bookkeepers, accounting, and auditing clerks (4712)
- 338 Payroll and timekeeping clerks (4713)
- 339 Billing clerks (4715)
- 343 Cost and rate clerks (4716)
- 344 Billing, posting, and calculating machine operators (4718)
- Duplicating, Mail and Other Office Machine Operators
- 345 Duplicating machine operators (4722)
- 346 Mail preparing and paper handling machine operators (4723)
- 347 Office machine operators, n.e.c. (4729)
- Communications Equipment Operators
- 348 Telephone operators (4732)
- 349 Telegraphers (4733)
- 353 Communications equipment operators, n.e.c. (4739)
- Mail and Message Distributing Occupations
- 354 Postal clerks, exc. mail carriers (4742)
- 355 Mail carriers, postal service (4743)
- 356 Mail clerks, exc. postal service (4744)
- 357 Messengers (4745)
- Material Recording, Scheduling, and Distributing Clerks
- 359 Dispatchers (4751)

SIPP RECTANGULAR FILES

363	Production coordinators (4752)
364	Traffic, shipping, and receiving clerks (4753)
365	Stock and inventory clerks (4754)
366	Meter readers (4755)
368	Weighers, measurers, and checkers (4756)
369	Samplers (4757)
373	Expediteurs (4758)
374	Material recording, scheduling, and distributing clerks, n.e.c. (4759)
	Adjusters and Investigators
375	Insurance adjusters, examiners, and investigators (4782)
376	Investigators and adjusters, except insurance (4783)
377	Eligibility clerks, social welfare (4784)
378	Bill and account collectors (4786)
	Miscellaneous Administrative Support Occupations
379	General office clerks (463)
383	Bank tellers (4791)
384	Proofreaders (4792)
385	Data-entry keyers (4793)
386	Statistical clerks (4794)
387	Teachers' aides (4795)
389	Administrative support occupations, n.e.c. (4787, 4799)

SERVICE OCCUPATIONS

Private Household Occupations

403	Launderers and ironers (503)
404	Cooks, private household (504)
405	Housekeepers and butlers (505)
406	Child care workers, private household (506)
T(407)	Private household cleaners and servants (502, 507, 509)

Protective Service Occupations

	Supervisors, Protective Service Occupations
413	Supervisors, firefighting and fire prevention occupations (5111)
414	Supervisors, police and detectives (5112)
415	Supervisors, guards (5113)
	Firefighting and Fire Prevention Occupations
416	Fire inspection and fire prevention occupations (5122)
417	Firefighting occupations (5123)
	Police and Detectives
418	Police and detectives, public service (5132)
423	Sheriffs bailiffs, and other law enforcement officers (5134)
424	Correctional institution officers (5133)
	Guards
425	Crossing guards (5142)
426	Guards and police, exc. public service (5144)
427	Protective service occupations, n.e.c. (5149)

Service Occupations, Except Protective and Household

	Food Preparation and Service Occupations
433	Supervisors, food preparation and service occupations (5211)
434	Bartenders (5212)
U(435)	Waiters and waitresses (5213)

APPENDIX A-4 - OCCUPATION CLASSIFICATION SYSTEM

436	Cooks, except short order (5214)
437	Short-order cooks (5215)
438	Food counter, fountain and related occupations (5216)
439	Kitchen workers, food preparation (5217)
443	Waiters'/waitresses' assistants (5218)
444	Miscellaneous food preparation occupations (5219)
	Health Service Occupations
445	Dental assistants (5232)
446	Health aides, except nursing (5233)
447	Nursing aides, orderlies, and attendants (5236)
	Cleaning and Building Service Occupations, except Household
448	Supervisors, cleaning and building service workers (5241)
449	Maids and housemen (5242, 5249)
V(453)	Janitors and cleaners (5244)
454	Elevator operators (5245)
455	Pest control occupations (5246)
	Personal Service Occupations
456	Supervisors, personal service occupations (5251)
457	Barbers (5252)
458	Hairdressers and cosmetologists (5253)
459	Attendants, amusement and recreation facilities (5254)
463	Guides (5255)
464	Ushers (5256)
465	Public transportation attendants (5257)
466	Baggage porters and bellhops (5262)
467	Welfare service aides (5263)
468	Child care workers, except private household (5264)
469	Personal service occupations, n.e.c. (5258, 5269)

FARMING, FORESTRY, AND FISHING OCCUPATIONS

Farm Operators and Managers

W(473)	Farmers, except horticultural (5512-5514)
474	Horticultural specialty farmers (5515)
475	Managers, farms, except horticultural (5522-5524)
476	Managers, horticultural specialty farms (5525)

Other Agricultural and Related Occupations

	Farm Occupations, Except Managerial
477	Supervisors, farm workers (5611)
479	Farm workers (5612-5617)
483	Marine life cultivation workers (5618)
484	Nursery workers (5619)
	Related Agricultural Occupations
485	Supervisors, related agricultural occupations (5621)
486	Groundskeepers and gardeners, except farm (5622)
487	Animal caretakers, except farm (5624)
488	Graders and sorters, agricultural products (5625)
489	Inspectors, agricultural products (5627)

SIPP RECTANGULAR FILES

Forestry and Logging Occupations

- 494 Supervisors, forestry, and logging workers (571)
- 495 Forestry workers, except logging (572)
- 496 Timber cutting and logging occupations (573, 579)

Fishers, Hunters, and Trappers

- 497 Captains and other officers, fishing vessels (pt 8241)
- 498 Fishers (583)
- 499 Hunters and trappers (584)

PRECISION PRODUCTION, CRAFT, AND REPAIR OCCUPATIONS

Mechanics and Repairers

- 503 Supervisors, mechanics and repairers (60)
- Mechanics and Repairers, Except Supervisors
- Vehicle and Mobile Equipment Mechanics and Repairers
- X(505) Automobile mechanics (pt 6111)
- 506 Automobile mechanic apprentices (pt 6111)
- 507 Bus, truck, and stationary engine mechanics (6112)
- 508 Aircraft engine mechanics (6113)
- 509 Small engine repairers (6114)
- 514 Automobile body and related repairers (6115)
- 515 Aircraft mechanics, exc. engine (6116)
- 516 Heavy equipment mechanics (6117)
- 517 Farm equipment mechanics (6118)
- 518 Industrial machinery repairers (613)
- 519 Machinery maintenance occupations (614)
- Electrical and Electronic Equipment Repairers
- 523 Electronic repairers, communications and industrial equipment (6151, 6153, 6155)
- 525 Data processing equipment repairers (6154)
- 526 Household appliance and power tool repairers (6156)
- 527 Telephone line installers and repairers (6157)
- 529 Telephone installers and repairers (6158)
- 533 Miscellaneous electrical and electronic equipment repairers (6152, 6159)
- 534 Heating, air conditioning, and refrigeration mechanics (6161)
- Miscellaneous Mechanics and Repairers
- 535 Camera, watch, and musical instrument repairers (6171, 6172)
- 536 Locksmiths and safe repairers (6173)
- 538 Office machine repairers (6174)
- 539 Mechanical controls and valve repairers (6175)
- 543 Elevator installers and repairers (6176)
- 544 Millwrights (6178)
- 547 Specified mechanics and repairers, n.e.c. (6177, 6179)
- 549 Not specified mechanics and repairers

Construction Trades

- Supervisors, construction occupations
- 553 Supervisors; brickmasons, stonemasons, and tile setters (6312)
- 554 Supervisors, carpenters and related workers (6313)
- 555 Supervisors, electricians and power transmission installers (6314)
- 556 Supervisors; painters, paperhangers, and plasterers (6315)
- 557 Supervisors; plumbers, pipefitters, and steamfitters (6316)

APPENDIX A-4 - OCCUPATION CLASSIFICATION SYSTEM

558	Supervisors, n.e.c. (6311, 6318)
	Construction Trades, Except Supervisors
563	Brickmasons and stonemasons (pt 6412, pt 6413)
564	Brickmason and stonemason apprentices (pt 6412, pt 6413)
565	Tile setters, hard and soft (6414, pt 6462)
566	Carpet installers (pt 6462)
Y(567)	Carpenters (pt 6422)
569	Carpenter apprentices (pt 6422)
573	Drywall installers (6424)
575	Electricians (pt 6432)
576	Electrician apprentices (pt 6432)
577	Electrical power installers and repairers (6433)
579	Painters, construction and maintenance (6442)
583	Paperhangers (6443)
584	Plasterers (6444)
585	Plumbers, pipefitters, and steamfitters (pt 645)
587	Plumber, pipefitter, and steamfitter apprentices (pt 645)
588	Concrete and terrazzo finishers (6463)
589	Glaziers (6464)
593	Insulation workers (6465)
594	Paving, surfacing, and tamping equipment operators (6466)
595	Roofers (6468)
596	Sheetmetal duct installers (6472)
597	Structural metal workers (6473)
598	Drillers, earth (6474)
599	Construction trades, n.e.c. (6467, 6475, 6476, 6479)
	Extractive Occupations
613	Supervisors, extractive occupations (632)
614	Drillers, oil well (652)
615	Explosives workers (653)
616	Mining machine operators (654)
617	Mining occupations, n.e.c. (656)
	Precision Production Occupations
633	Supervisors, production occupations (67, 71)
	Precision Metal Working Occupations
634	Tool and die makers (pt 6811)
635	Tool and die maker apprentices (pt 6811)
636	Precision assemblers, metal (6812)
637	Machinists (pt 6813)
639	Machinist apprentices (pt 6813)
643	Boilermakers (6814)
644	Precision grinders, filers, and tool sharpeners (6816)
645	Patternmakers and model makers, metal (6817)
646	Lay-out workers (6821)
647	Precious stones and metals workers (Jewelers) (6822, 6866)
649	Engravers, metal (6823)
653	Sheet metal workers (pt 6824)
654	Sheet metal worker apprentices (pt 6824)
655	Miscellaneous precision metal workers (6829)
	Precision Woodworking Occupations
656	Patternmakers and model makers, wood (6831)
657	Cabinet makers and bench carpenters (6832)
658	Furniture and wood finishers (6835)
659	Miscellaneous precision woodworkers (6839)
	Precision Textile, Apparel, and Furnishings Machine Workers
666	Dressmakers (pt 6852, pt 7752)

SIPP RECTANGULAR FILES

667	Tailors (pt 6852)
668	Upholsterers (6853)
669	Shoe repairers (6854)
673	Apparel and fabric patternmakers (6856)
674	Miscellaneous precision apparel and fabric workers (6859, pt 7752)
	Precision Workers, Assorted Materials
675	Hand molders and shapers, except jewelers (6861)
676	Patternmakers, lay-out workers, and cutters (6862)
677	Optical goods workers (6864, pt 7477, pt 7677)
678	Dental laboratory and medical appliance technicians (6865)
679	Bookbinders (6844)
683	Electrical and electronic equipment assemblers (6867)
684	Miscellaneous precision workers, n.e.c. (6869)
	Precision Food Production Occupations
686	Butchers and meat cutters (6871)
687	Bakers (6872)
688	Food batchmakers (6873, 6879)
	Precision Inspectors, Testers, and Related Workers
689	Inspectors, testers, and graders (6881, 828)
693	Adjusters and calibrators (6882)
	Plant and System Operators
694	Water and sewage treatment plant operators (691)
695	Power plant operators (pt 693)
696	Stationary engineers (pt 693, 7668)
699	Miscellaneous plant and system operators (692, 694, 695, 696)

OPERATORS, FABRICATORS, AND LABORERS

Machine Operators, Assemblers, and Inspectors

Machine Operators and Tenders, except Precision

Metal working and Plastic Working Machine Operators

703	Lathe and turning machine set-up operators (7312)
704	Lathe and turning machine operators (7512)
705	Milling and planing machine operators (7313, 7513)
706	Punching and stamping press machine operators (7314, 7317, 7514, 7517)
707	Rolling machine operators (7316, 7516)
708	Drilling and boring machine operators (7318, 7518)
709	Grinding, abrading, buffing, and polishing machine operators (7322, 7324, 7522)
713	Forging machine operators (7319, 7519)
714	Numerical control machine operators (7326)
715	Miscellaneous metal, plastic, stone, and glass working machine operators (7329, 7529)
717	Fabricating machine operators, n.e.c. (7339, 7539)

Metal and Plastic Processing Machine Operators

719	Molding and casting machine operators (7315, 7342, 7515, 7542)
723	Metal plating machine operators (7343, 7543)
724	Heat treating equipment operators (7344, 7544)
725	Miscellaneous metal and plastic processing machine operators (7349, 7549)

Woodworking Machine Operators

726	Wood lathe, routing, and planing machine operators (7431, 7432, 7631, 7632)
727	Sawing machine operators (7433, 7633)
728	Shaping and joining machine operators (7435, 7635)
729	Nailing and tacking machine operators (7636)
733	Miscellaneous woodworking machine operators (7434, 7439, 7634, 7639)

Printing Machine Operators

- 734 Printing machine operators (7443, 7643)
- 735 Photoengravers and lithographers (6842, 7444, 7644)
- 736 Typesetters and compositors (6841, 7642)
- 737 Miscellaneous printing machine operators (6849, 7449, 7649)

Textile, Apparel, and Furnishings Machine Operators

- 738 Winding and twisting machine operators (7451, 7651)
- 739 Knitting, looping, taping, and weaving machine operators (7452, 7652)
- 743 Textile cutting machine operators (7654)
- 744 Textile sewing machine operators (7655)
- 745 Shoe machine operators (7656)
- 747 Pressing machine operators (7657)
- 748 Laundering and dry cleaning machine operators (6855, 7658)
- 749 Miscellaneous textile machine operators (7459, 7659)

Machine Operators, Assorted Materials

- 753 Cementing and gluing machine operators (7661)
- 754 Packaging and filling machine operators (7462, 7662)
- 755 Extruding and forming machine operators (7463, 7663)
- 756 Mixing and blending machine operators (7664)
- 757 Separating, filtering, and clarifying machine operators (7476, 7666, 7676)
- 758 Compressing and compacting machine operators (7467, 7667)
- 759 Painting and paint spraying machine operators (7669)
- 763 Roasting and baking machine operators, food (7472, 7672)
- 764 Washing, cleaning, and pickling machine operators (7673)
- 765 Folding machine operators (7474, 7674)
- 766 Furnace, kiln, and oven operators, exc. food (7675)
- 768 Crushing and grinding machine operators (pt 7477, pt 7677)
- 769 Slicing and cutting machine operators (7478, 7678)
- 773 Motion picture projectionists (pt 7479)
- 774 Photographic process machine operators (6863, 6868, 7671)
- 777 Miscellaneous machine operators, n.e.c. (pt 7479, 7665, 7679)
- 779 Machine operators, not specified

Fabricators, Assemblers, and Hand Working Occupations

- 783 Welders and cutters (7332, 7532, 7714)
- 784 Solderers and brazers (7333, 7533, 7717)
- 785 Assemblers (772, 774)
- 786 Hand cutting and trimming occupations (7753)
- 787 Hand molding, casting, and forming occupations (7754, 7755)
- 789 Hand painting, coating, and decorating occupations (7756)
- 793 Hand engraving and printing occupations (7757)
- 794 Hand grinding and polishing occupations (7758)
- 795 Miscellaneous hand working occupations (7759)

Production Inspectors, Testers, Samplers, and Weighers

- 796 Production inspectors, checkers, and examiners (782, 787)
- 797 Production testers (783)
- 798 Production samplers and weighers (784)
- 799 Graders and sorters, exc. agricultural (785)

Transportation and Material Moving Occupations**Motor Vehicle Operators**

- 803 Supervisors, motor vehicle operators (8111)
- 804) Truck drivers, heavy (8212, 8213)
- 805 Truck drivers, light (8214)
- 806 Driver-sales workers (8218)
- 808 Bus drivers (8215)

SIPP RECTANGULAR FILES

809 Taxicab drivers and chauffeurs (8216)
813 Parking lot attendants (874)
814 Motor transportation occupations, n.e.c. (8219)
Transportation Occupations, Except Motor Vehicles
Rail Transportation Occupations
823 Railroad conductors and yardmasters (8113)
824 Locomotive operating occupations (8232)
825 Railroad brake, signal, and switch operators (8233)
826 Rail vehicle operators, n.e.c. (8239)
Water Transportation Occupations
828 Ship captains and mates, except fishing boats (pt 8241, 8242)
829 Sailors and deckhands (8243)
833 Marine engineers (8244)
834 Bridge, lock, and lighthouse tenders (8245)
Material Moving Equipment Operators
843 Supervisors, material moving equipment operators (812)
844 Operating engineers (8312)
845 Longshore equipment operators (8313)
848 Hoist and winch operators (8314)
849 Crane and tower operators (8315)
853 Excavating and loading machine operators (8316)
855 Grader, dozer, and scraper operators (8317)
856 Industrial truck and tractor equipment operators (8318)
859 Miscellaneous material moving equipment operators (8319)

Handlers, Equipment Cleaners, Helpers, and Laborers

863 Supervisors, handlers, equipment cleaners, and laborers, n.e.c. (85)
864 Helpers, mechanics and repairers (863)
Helpers, Construction and Extractive Occupations
865 Helpers, construction trades (8641-8645, 8648)
866 Helpers, surveyor (8646)
867 Helpers, extractive occupations (865)
869 Construction laborers (871)
873 Production helpers (861, 862)
Freight, Stock, and Material Handlers
875 Garbage collectors (8722)
876 Stevedores (8723)
877 Stock handlers and baggers (8724)
878 Machine feeders and offbearers (8725)
883 Freight, stock, and material handlers, n.e.c. (8726)
885 Garage and service station related occupations (873)
887 Vehicle washers and equipment cleaners (875)
888 Hand packers and packagers (8761)
889 Laborers, except construction (8769)
905 Member of the Armed Forces

APPENDIX A-5

1980 Census of Population Industry Classification System

(Alphabets parentheses are the 1972 SIC code equivalents ¹⁾)

Census
Code

AGRICULTURE, FORESTRY, AND FISHERIES

- 010 (A) Agricultural production, crops (01)
- 011 Agricultural production, livestock (02)
- 020 Agricultural services, except horticultural (07, except 078)
- 021 Horticultural services (078)
- 030 Forestry (08)
- 031 Fishing, hunting, and trapping (09)

MINING

- 040 Metal mining (10)
- 041 Coal mining (11, 12)
- 042 Crude petroleum and natural gas extraction (13)*
- 050 Nonmetallic mining and quarrying, except fuel (14)

- 060 (B) CONSTRUCTION (15, 16, 17)

MANUFACTURING

Nondurable Goods

Food and kindred products

- 100 Meat products (201)
- 101 Dairy products (202)
- 102 Canned and preserved fruits and vegetables (203)
- 110 Grain mill products (204)
- 111 Bakery products (205)
- 112 Sugar and confectionery products (206)
- 120 Beverage industries (208)
- 121 Miscellaneous food preparations and kindred products (207, 209)
- 122 Not specified food industries
- 130 Tobacco manufactures (21)

Textile mill products

- 132 Knitting mills (225)
- 140 Dyeing and finishing textiles, except wool and knit goods (226)
- 141 Floor coverings, except hard surface (227)
- 142 Yarn, thread, and fabric mills (221-224, 228)
- 150 Miscellaneous textile mill products (229)

¹ See Executive Office of the President, Office of Management and Budget, Standard Industrial Classification Manual, 1972 and the 1977 Supplement.

SIPP RECTANGULAR FILES

- Apparel and other finished textile products
- 151 Apparel and accessories, except knit (231-238)
- 152 Miscellaneous fabricated textile products (239)
- Paper and allied products
- 160 Pulp, paper, and paperboard mills (261-263, 266)
- 161 Miscellaneous paper and pulp products (264)
- 162 Paperboard containers and boxes (265)
- Printing, publishing, and allied industries
- 171 (C) Newspaper publishing and printing (271)
- 172 Printing, publishing, and allied industries, except newspapers (272-279)
- Chemicals and allied products
- 180 Plastics, synthetics, and resins (282)
- 181 Drugs (283)
- 182 Soaps and cosmetics (284)
- 190 Paints, varnishes, and related products (287)
- 191 Agricultural chemicals (287)
- 192 Industrial and miscellaneous chemicals (281, 286, 289)
- Petroleum and coal products
- 200 Petroleum refining (291)
- 201 Miscellaneous petroleum and coal products (295, 299)
- Rubber and miscellaneous plastics products
- 210 Tires and inner tubes (301)
- 211 Other rubber products, and plastics footwear and belting (302-304, 306)
- 212 Miscellaneous plastics products (307)
- Leather and leather products
- 220 Leather tanning and finishing (311)
- 221 Footwear, except rubber and plastic (313, 314)
- 222 Leather products, except footwear (315-317, 319)

Durable Goods

- Lumber and wood products, except furniture
- 230 Logging (241)
- 231 Sawmills, planing mills, and millwork (242, 243)
- 232 Wood buildings and mobile homes (245)
- 241 Miscellaneous wood products (244, 249)
- 242 Furniture and fixtures (25)
- Stone, clay, glass, and concrete products
- 250 Glass and glass products (321-323)
- 251 Cement, concrete, gypsum, and plaster products (324, 327)
- 252 Structural clay products (325)
- 261 Pottery and related products (326)
- 262 Miscellaneous nonmetallic mineral and stone products (328, 329).
- Metal industries
- 270 Blast furnaces, steelworks, rolling and finishing mills (331)
- 271 Iron and steel foundries (332)
- 272 Primary aluminum industries (3334, part 334, 3353-3355, 3361)
- 280 Other primary metal industries (3331-3333, 3339, part 334, 3351, 3356, 3357, 3362, 3369, 339)
- 281 Cutlery, handtools, and other hardware (342)
- 282 Fabricated structural metal products (344)
- 290 Screw machine products (345)
- 291 Metal forgings and stampings (346)
- 292 Ordnance (348)

APPENDIX A-5 - INDUSTRY CLASSIFICATION SYSTEM

- 300 Miscellaneous fabricated metal products (341, 343, 347, 349)
- 301 Not specified metal industries
- Machinery, except electrical
- 310 Engines and turbines (351)
- 311 Farm machinery and equipment (352)
- 312 Construction and material handling machines (353)
- 320 Metalworking machinery (354)
- 321 Office and accounting machines (357, except 3573)
- 322 Electronic computing equipment (3573)
- 331 Machinery, except electrical, n.e.c. (355, 356, 358, 359)
- 332 Not specified machinery
- Electrical machinery, equipment, and supplies
- 340 Household appliances (363)
- 341 Radio, T.V., and communication equipment (365, 366)
- 342 Electrical machinery, equipment, and supplies, n.e.c. (361, 362, 364, 367, 369)
- 350 Not specified electrical machinery, equipment, and supplies
- Transportation equipment
- 351 Motor vehicles and motor vehicle equipment (371)
- 352 Aircraft and parts (372)
- 360 Ship and boat building and repairing (373)
- 361 Railroad locomotives and equipment (374)
- 362 Guided missiles, space vehicles, and parts (376)
- 370 Cycles and miscellaneous transportation equipment (375, 379)
- Professional and photographic equipment, and watches
- 371 Scientific and controlling instruments (381, 382)
- 372 Optical and health services supplies (383, 384, 385)
- 380 Photographic equipment and supplies (386)
- 381 Watches, clocks, and clockwork operated devices (387)
- 382 Not specified professional equipment
- 390 Toys, amusement, and sporting goods (394)
- 391 Miscellaneous manufacturing industries (39 exc. 394)
- 392 Not specified manufacturing industries

TRANSPORTATION, COMMUNICATIONS, AND OTHER PUBLIC UTILITIES

- Transportation
- 400 Railroads (40)
- 401 Bus service and urban transit (41, except 412)
- 402 Taxicab service (412)
- 410 Trucking service (421, 423)
- 411 Warehousing and storage (422)
- 412 U.S. Postal Service (43)
- 420 Water transportation (44)
- 421 Air transportation (45)
- 422 Pipe lines, except natural gas (46)
- 432 Services incidental to transportation (47)
- Communications
- 440 Radio and television broadcasting (483)
- 441 Telephone (wire and radio) (481)
- 442 Telegraph and miscellaneous communication services (482, 489)
- Utilities and sanitary services
- 460 Electric light and power (491)

SIPP RECTANGULAR FILES

- 461 Gas and steam supply systems (492, 496)
- 462 Electric and gas, and other combinations (493)
- 470 Water supply and irrigation (494, 497)
- 471 Sanitary services (495)
- 472 Not specified utilities

WHOLESALE TRADE

Durable Goods

- 500 Motor vehicles and equipment (501)
- 501 Furniture and home furnishings (502)
- 502 Lumber and construction materials (503)
- 510 Sporting goods, toys, and hobby goods (504)
- 511 Metals and minerals, except petroleum (505)
- 512 Electrical goods (506)
- 521 Hardware, plumbing and heating supplies (507)
- 522 Not specified electrical and hardware products
- 530 Machinery, equipment, and supplies (508)
- 531 Scrap and waste materials (5093)
- 532 Miscellaneous wholesale, durable goods (5094, 5099)

Nondurable Goods

- 540 Paper and paper products (511)
- 541 Drugs, chemicals and allied products (512, 516)
- 542 Apparel, fabrics, and notions (513)
- 550 Groceries and related products (514)
- 551 Farm products - raw materials (515)
- 552 Petroleum products (517)
- 560 Alcoholic beverages (518)
- 561 Farm supplies (5191)
- 562 Miscellaneous wholesale, nondurable goods (5194, 5198, 5199)
- 571 Not specified wholesale trade

RETAIL TRADE

- 580 Lumber and building material retailing (521, 523)
- 581 Hardware stores (525)
- 582 Retail nurseries and garden stores (526)
- 590 Mobile home dealers (527)
- 591 (D) Department stores (531)
- 592 Variety stores (533)
- 600 Miscellaneous general merchandise stores (539)
- 601 (E) Grocery stores (541)
- 602 Dairy products stores (545)
- 610 Retail bakeries (546)
- 611 Food stores, n.e.c. (542, 543, 544, 549)
- 612 Motor vehicle dealers (551, 552)
- 620 Auto and home supply stores (553)
- 621 Gasoline service stations (554)
- 622 Miscellaneous vehicle dealers (555, 556, 557, 559)
- 630 Apparel and accessory stores, except shoe (56, except 566)
- 631 Shoe stores (566)

APPENDIX A-5 - INDUSTRY CLASSIFICATION SYSTEM

- 632 Furniture and home furnishings stores (571)
- 640 Household appliances, TV, and radio stores (572, 573)
- 641 (F) Eating and drinking places (58)
- 642 Drug stores (591)
- 650 Liquor stores (592)
- 651 Sporting goods, bicycles, and hobby stores (5941, 5945, 5946)
- 652 Book and stationery stores (5942, 5943)
- 660 Jewelry stores (5944)
- 661 Sewing, needlework and piece goods stores (5949)
- 662 Mail order houses (5961)
- 670 Vending machine operators (5962)
- 671 Direct selling establishments¹ establishments (5963)
- 672 Fuel and ice dealers (598)
- 681 Retail florists (5992)
- 682 Miscellaneous retail stores (593, 5947, 5948, 5993, 5994, 5999)
- 691 Not specified retail trade

FINANCE, INSURANCE, AND REAL ESTATE

- 700 (G) Banking (60)
- 701 Savings and loan associations (612)
- 702 Credit agencies, n.e.c. (61, except 612)
- 710 Security, commodity brokerage, and investment companies (62, 67)
- 711 (H) Insurance (63, 64)
- 712 Real estate, including real estate-insurance-law offices (65, 66)

BUSINESS AND REPAIR SERVICES

- 721 Advertising (731)
- 722 Services to dwellings and other buildings (734)
- 730 Commercial research, development, and testing labs (7391, 7397)
- 731 Personnel supply services (736)
- 732 Business management and consulting services (7392)
- 740 Computer and data processing services (737)
- 741 Detective and protective services (7393)
- 742 Business services, n.e.c. (732, 733, 735, 7394, 7395, 7396, 7399)
- 750 Automotive services, except repair (751, 752, 754)
- 751 Automotive repair shops (753)
- 752 Electrical repair shops (762, 7694)
- 760 Miscellaneous repair services (763, 764, 7692, 7699)

PERSONAL SERVICES

- 761 (J) Private households (88)
- 762 Hotels and motels (701)
- 770 Lodging places, except hotels and motels (702, 703, 704)
- 771 Laundry, cleaning, and garment services (721)
- 772 Beauty shops (723)
- 780 Barber shops (724)
- 781 Funeral service and crematories (726)
- 782 Shoe repair shops (725)
- 790 Dressmaking shops (part 729)

SIPP RECTANGULAR FILES

791 Miscellaneous personal services (722, part 729)

ENTERTAINMENT AND RECREATION SERVICES

800 Theaters and motion pictures (78, 792)
801 Bowling alleys, billiard and pool parlors (793)
802 Miscellaneous entertainment and recreation services (791, 794, 799)

PROFESSIONAL AND RELATED SERVICES

812 Offices of physicians (801, 803)
820 Offices of dentists (802)
821 Offices of chiropractors (8041)
822 Offices of optometrists (8042)
830 Offices of health practitioners, n.e.c. (8049)
831 (K) Hospitals (806)
832 Nursing and personal care facilities (805)
840 Health services, n.e.c. (807, 808, 809)
841 Legal services (81)
842 (L) Elementary and secondary schools (821)
850 (M) Colleges and universities (822)
851 Business, trade, and vocational schools (824)
852 Libraries (823)
860 Educational services, n.e.c. (829)
861 Job training and vocational rehabilitation services (833)
862 Child day care services (835)
870 Residential care facilities, without nursing (836)
871 Social services, n.e.c. (832, 839)
872 Museums, art galleries, and zoos (84)
880 Religious organizations (866)
881 Membership organizations (861-865, 869)
882 Engineering, architectural, and surveying services (891)
890 Accounting, auditing, and bookkeeping services (893)
891 Noncommercial educational and scientific research (892)
892 Miscellaneous professional and related services (899)

PUBLIC ADMINISTRATION

900 Executive and legislative offices (911-913)
901 General government, n.e.c. (919)
910 Justice, public order, and safety (92)
921 Public finance, taxation, and monetary policy (93)
922 Administration of human resources programs (94)
930 Administration of environmental quality and housing programs (95)
931 Administration of economic programs (96)
932 National security and international affairs (97)
991 Member of the Armed Forces

12. 1 ☐ Phone interview — Specify reason**INTRODUCTION****INTERVIEWER INSTRUCTIONS** — Read introduction once to each respondent. Do not repeat to another respondent who was in the room when you earlier read the introduction.

(As I described during my last visit.) This survey is about the economic situation of people living in the United States. Most of the questions will be about ... activities during _____, and _____.

Here is a calendar that shows the 4 months we will be talking about. (Hand respondent Flashcard J.) This time period is very important, so if you have any questions about what period is being referred to during the interview, please ask me.

We need the most accurate and complete information possible. Please think carefully about each question, search your memory and take your time in answering. For some of the questions it will help to look up the answers by checking whatever records are available to you here. (GO TO CHECK ITEM N1.)

CHECK ITEM N1

Does ...'s person number begin with a "2"?

PQM 7

0900

- 1 ☐ Yes
2 ☐ No — SKIP to Section 1, item 1, page 2

CHECK ITEM N2

Was ... missed when household members were listed for Wave 1?

0901

- 1 ☐ Yes — Change person number in item 4b to a "100" level person number. Correct person number in cc items 18 and 31a and enter code "24" in cc item 23 for the missed person. SKIP to Section 1, item 1, page 2.
2 ☐ No

13a. On March 31, 1987, was ... living in any of the kinds of places listed on this card? (Show Flashcard P)

0914

- 1 ☐ Yes x1 ☐ DK } SKIP to Section 1, item 1, page 2
2 ☐ No — SKIP to Section 1, item 1, page 2 x2 ☐ Ref.

b. Which code on this card represents the kind of place ... was living in on March 31, 1987?

0916

- 1 ☐ Armed Forces barracks 3 ☐ Nonhousehold setting
2 ☐ Outside the United States

1642 ☐ Mortgages — Mark "130" on ISS
1644 ☐ U. S. Savings Bonds (E, EE) — Mark "174" on ISS
1646 ☐ Other interest-earning assets — Mark "107" on ISS and specify
1648 ☐ Stocks or mutual fund shares — Mark "110" on ISS
1650 ☐ Rental property — Mark "120" on ISS
1652 ☐ Royalties — Mark "140" on ISS
1654 ☐ Other financial investments — Mark "150" on ISS and specify

NOTES

Section 1 — LABOR FORCE AND RECIPIENCY (Continued)

30a. Was ... enrolled in school, either full-time or part-time during any of the past 4 months? (Include any regular school, such as elementary, high school, or college, or any vocational, technical, or business school.)	1656 1 <input type="checkbox"/> Yes, full-time 2 <input type="checkbox"/> Yes, part-time 3 <input type="checkbox"/> No — SKIP to Check Item R33
b. During which months was ... enrolled? Mark (X) all that apply.	1658 1 <input type="checkbox"/> All months 1660 2 <input type="checkbox"/> Last month 1662 3 <input type="checkbox"/> 2 months ago 1664 4 <input type="checkbox"/> 3 months ago 1666 5 <input type="checkbox"/> 4 months ago
c. At what level or grade was ... enrolled? (If enrolled at more than one level during this period, check most recent level.)	1668 1 <input type="checkbox"/> Elementary grades 1–8 } SKIP to Check 2 <input type="checkbox"/> High school grades 9–12 } Item R33 3 <input type="checkbox"/> College year 1 4 <input type="checkbox"/> College year 2 5 <input type="checkbox"/> College year 3 6 <input type="checkbox"/> College year 4 7 <input type="checkbox"/> College year 5 8 <input type="checkbox"/> College year 6 9 <input type="checkbox"/> Vocational school 10 <input type="checkbox"/> Technical school 11 <input type="checkbox"/> Business school
31a. Were any of ...'s educational expenses during the last 4 months paid for by the GI Bill, a PELL (BEOG) Grant, a Guaranteed or National Direct Student Loan, any type of scholarship, grant, or other educational assistance?	1670 1 <input type="checkbox"/> Yes 2 <input type="checkbox"/> No — SKIP to Check Item R33
b. What kind of educational assistance did ... receive? Anything else? Mark (X) all that apply.	1672 1 <input type="checkbox"/> GI Bill — Mark "40" on ISS 1674 2 <input type="checkbox"/> Other Veteran's Administration Educational Assistance Programs (Survivors and Dependents; Vocational Rehabilitation; Post-Vietnam Veterans) — Mark "41" on ISS 1676 3 <input type="checkbox"/> College Work Study — Mark "175" on ISS 1678 4 <input type="checkbox"/> PELL Grant — Mark "176" on ISS 1680 5 <input type="checkbox"/> Supplemental Educational Opportunity Grant (SEOG) — Mark "177" on ISS 1682 6 <input type="checkbox"/> National Direct Student Loan (NDSL) — Mark "178" on ISS 1684 7 <input type="checkbox"/> Guaranteed Student Loan — Mark "179" on ISS 1686 8 <input type="checkbox"/> JTPA Training — Mark "180" on ISS 1688 9 <input type="checkbox"/> Employer Assistance — Mark "181" on ISS 1690 10 <input type="checkbox"/> Fellowship/Scholarship — Mark "182" on ISS 1692 11 <input type="checkbox"/> Other financial aid — Mark "183" on ISS
CHECK ITEM R33 Refer to cc item 26a. Is code 2 (Married, spouse absent) the current entry?	1694 1 <input type="checkbox"/> Yes 2 <input type="checkbox"/> No — SKIP to Check Item R34
ASK OR VERIFY — 32. Is ...'s spouse in the Armed Forces?	1696 1 <input type="checkbox"/> Yes 2 <input type="checkbox"/> No
CHECK ITEM R34 Are any codes (excluding codes 171–173, 200–201) marked on the ISS?	1698 1 <input type="checkbox"/> Yes 2 <input type="checkbox"/> No — SKIP to 34a
33a. You said that during the 4-month period ... received income from — (Read all items marked on the ISS, except codes 171–173, 200–201). Is that correct?	1700 1 <input type="checkbox"/> Yes 2 <input type="checkbox"/> No — Probe and resolve (Make corrections to ISS if necessary)
b. Did ... receive income from any other source such as financial help from someone outside the household, payments from the government or anything else?	1702 1 <input type="checkbox"/> Yes — SKIP to 34b 2 <input type="checkbox"/> No — SKIP to Check Item E1
34a. I have not recorded any sources of income for ... during the 4-month period. Did ... receive income from some source we have not covered, such as financial help from someone outside the household, payments from the government or anything else?	1704 1 <input type="checkbox"/> Yes 2 <input type="checkbox"/> No — SKIP to Check Item P1, page 45
b. What kind of income did ... receive? Anything else?	Enter codes from income source list and mark ISS. 1706 <input type="text"/> <input type="text"/> <input type="text"/> 1708 <input type="text"/> <input type="text"/> <input type="text"/> 1710 <input type="text"/> <input type="text"/> <input type="text"/>

Section 2 — EARNINGS AND EMPLOYMENT

**CHECK
ITEM E1**

Is "Worked" (code 170) marked on
ISS?

1712

- 1 ☐ Yes
2 ☐ No — *SKIP to first ISS Code marked or
Check Item P1, page 45*

1 a. You said ... worked during the 4-month
period. Was ... working for an employer or
was ... self-employed?
(Include unpaid worker in family business or
farm as working for an employer.)

1714

- 1 ☐ Worked for employer only
2 ☐ Self-employed only — *SKIP to Statement B,
page 18*
3 ☐ Both worked for employer and self-employed

b. How many different employers did ... work for
during this 4-month period?

1716

- 1 ☐ 1 employer
2 ☐ 2 employers
3 ☐ 3 or more employers

**CHECK
ITEM E2**

Is "Both worked for employer and
self-employed" (box 3) marked in 1a?

1718

- 1 ☐ Yes
2 ☐ No — *SKIP to 2a*

STATEMENT A

... worked for an employer and was also self-employed. The first questions
will be about ...'s work for an employer.

NOTES

EARNINGS AND EMPLOYMENT

Section 2 – EARNINGS AND EMPLOYMENT (Continued)	
Part A1 – EMPLOYER IDENTIFICATION NUMBER 1	
2a. What is the name of the employer for whom ... worked during this 4-month period? <i>(If ... worked for 2 employers, enter one employer here and the other in part A2, page 16. If ... worked for 3 or more employers, enter in A1 and A2 the 2 employers for whom ... worked the most hours.)</i>	<div style="border: 1px solid black; padding: 2px;">PGM 8</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">Employer name</div> <div style="border: 1px solid black; padding: 2px;">2000</div>
CHECK ITEM E3 Enter employer ID number from cc item 42, or if a new employer, enter the next available ID number	<div style="border: 1px solid black; padding: 2px;">PGM 8</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">Employer I.D. No.</div> <div style="border: 1px solid black; padding: 2px;">2002</div>
CHECK ITEM E3.1 Is the previous wave box marked for this employer in cc item 42?	<div style="border: 1px solid black; padding: 2px;">PGM 8</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">1 <input type="checkbox"/> Yes</div> <div style="border: 1px solid black; padding: 2px;">2003</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">2 <input type="checkbox"/> No – SKIP to 2c</div>
2b. Have ...'s main activities or duties for this employer changed during the past 8 months?	<div style="border: 1px solid black; padding: 2px;">PGM 8</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">1 <input type="checkbox"/> Yes</div> <div style="border: 1px solid black; padding: 2px;">2004</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">2 <input type="checkbox"/> No – SKIP to 3a</div>
c. What kind of business or industry was (Name of company or business)? <i>For example: TV and radio manufacturing, retail shoe store, State Labor Department, farm.</i>	<div style="border: 1px solid black; padding: 2px;">PGM 8</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;"></div> <div style="border: 1px solid black; padding: 2px;">2005</div>
ASK OR VERIFY – d. Is it mainly –	<div style="border: 1px solid black; padding: 2px;">PGM 8</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">1 <input type="checkbox"/> Manufacturing?</div> <div style="border: 1px solid black; padding: 2px;">2006</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">2 <input type="checkbox"/> Wholesale Trade?</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">3 <input type="checkbox"/> Retail Trade?</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">4 <input type="checkbox"/> Some other kind of business?</div>
e. What kind of work was ... doing on this job? <i>For example: Electrical engineer, stock clerk, typist, farmer</i>	<div style="border: 1px solid black; padding: 2px;">PGM 8</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;"></div> <div style="border: 1px solid black; padding: 2px;">2008</div>
f. What were ...'s main activities or duties? <i>For example: Types, keeps account books, files, sells cars, operates printing press, finishes concrete.</i>	<div style="border: 1px solid black; padding: 2px;">PGM 8</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;"></div> <div style="border: 1px solid black; padding: 2px;">2010</div>
ASK OR VERIFY – g. Was ... an employee of –	<div style="border: 1px solid black; padding: 2px;">PGM 8</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">1 <input type="checkbox"/> A private for-profit company or individual?</div> <div style="border: 1px solid black; padding: 2px;">2012</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">2 <input type="checkbox"/> A private not-for-profit, tax exempt, or charitable organization?</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">3 <input type="checkbox"/> Federal government (exclude Armed Forces)?</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">4 <input type="checkbox"/> State government?</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">5 <input type="checkbox"/> Local government?</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">6 <input type="checkbox"/> Armed Forces?</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">7 <input type="checkbox"/> Unpaid in family business or farm? – SKIP to Check Item E5</div>
ASK OR VERIFY – 3a. Was ... employed by (Name of employer) during the entire 4-month period?	<div style="border: 1px solid black; padding: 2px;">PGM 7</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">1 <input type="checkbox"/> Yes – SKIP to 4</div> <div style="border: 1px solid black; padding: 2px;">2014</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">2 <input type="checkbox"/> No</div>
b. When was ... employed by (Name of employer) during this 4-month period?	<div style="border: 1px solid black; padding: 2px;">2016</div> <div style="display: flex; align-items: center; margin-bottom: 5px;"> <div style="margin-right: 10px;">FROM</div> <div style="border: 1px solid black; width: 40px; height: 20px; display: flex; align-items: center; justify-content: center;"> <div style="width: 20px; height: 20px; border: 1px solid black;"></div> <div style="width: 20px; height: 20px; border: 1px solid black;"></div> </div> <div style="margin: 0 5px;">Month</div> <div style="margin-left: 20px;">2018</div> <div style="border: 1px solid black; width: 40px; height: 20px; display: flex; align-items: center; justify-content: center;"> <div style="width: 20px; height: 20px; border: 1px solid black;"></div> <div style="width: 20px; height: 20px; border: 1px solid black;"></div> </div> <div style="margin: 0 5px;">Day</div> </div> <div style="border: 1px solid black; padding: 2px;">2020</div> <div style="display: flex; align-items: center; margin-bottom: 5px;"> <div style="margin-right: 10px;">TO</div> <div style="border: 1px solid black; width: 40px; height: 20px; display: flex; align-items: center; justify-content: center;"> <div style="width: 20px; height: 20px; border: 1px solid black;"></div> <div style="width: 20px; height: 20px; border: 1px solid black;"></div> </div> <div style="margin: 0 5px;">Month</div> <div style="margin-left: 20px;">2022</div> <div style="border: 1px solid black; width: 40px; height: 20px; display: flex; align-items: center; justify-content: center;"> <div style="width: 20px; height: 20px; border: 1px solid black;"></div> <div style="width: 20px; height: 20px; border: 1px solid black;"></div> </div> <div style="margin: 0 5px;">Day</div> </div>
CHECK ITEM E3.2 Did ... stop working for this employer during the reference period?	<div style="border: 1px solid black; padding: 2px;">2023</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">1 <input type="checkbox"/> Yes</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">2 <input type="checkbox"/> No – SKIP to 4</div>
3c. What is the main reason ... stopped working for (Name of employer)? <i>Mark (X) only one.</i>	<div style="border: 1px solid black; padding: 2px;">2024</div> <div style="display: flex; justify-content: space-between;"> <div style="width: 45%;"> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">1 <input type="checkbox"/> Laid off</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">2 <input type="checkbox"/> Retired</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">3 <input type="checkbox"/> Discharged</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">4 <input type="checkbox"/> Job was temporary and ended</div> </div> <div style="width: 45%;"> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">5 <input type="checkbox"/> Quit to take another job</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">6 <input type="checkbox"/> Quit for some other reason</div> </div> </div>
ASK OR VERIFY – 4. How many hours per week did ... usually work at this job?	<div style="border: 1px solid black; padding: 2px;">2025</div> <div style="display: flex; align-items: center; margin-bottom: 5px;"> <div style="border: 1px solid black; width: 40px; height: 20px; display: flex; align-items: center; justify-content: center;"> <div style="width: 20px; height: 20px; border: 1px solid black;"></div> <div style="width: 20px; height: 20px; border: 1px solid black;"></div> </div> <div style="margin: 0 5px;">Hours</div> </div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">x3 <input type="checkbox"/> None</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">x1 <input type="checkbox"/> DK</div>
5. Was ... paid by the hour on this job?	<div style="border: 1px solid black; padding: 2px;">2026</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">1 <input type="checkbox"/> Yes</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">2 <input type="checkbox"/> No – SKIP to 7</div>
6. What was ...'s regular hourly pay rate at the end of (Read last month or "to" date in item 3b)?	<div style="border: 1px solid black; padding: 2px;">2028</div> <div style="display: flex; align-items: center; margin-bottom: 5px;"> <div style="margin-right: 10px;">\$</div> <div style="border: 1px solid black; width: 80px; height: 20px; display: flex; align-items: center; justify-content: center;"> <div style="width: 40px; height: 20px; border: 1px solid black;"></div> <div style="width: 40px; height: 20px; border: 1px solid black;"></div> </div> </div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">x1 <input type="checkbox"/> DK</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">x2 <input type="checkbox"/> Ref. – SKIP to Check Item E5</div>
7. During the 4-month period how often was ... paid on this job?	<div style="border: 1px solid black; padding: 2px;">2030</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">1 <input type="checkbox"/> Once a week</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">2 <input type="checkbox"/> Once each 2 weeks</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">3 <input type="checkbox"/> Once a month</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">4 <input type="checkbox"/> Twice a month</div> <div style="border-bottom: 1px solid black; margin-bottom: 5px;">5 <input type="checkbox"/> Some other way – Specify _____</div>

Section 2 — EARNINGS AND EMPLOYMENT (Continued)		
Part A1 — EMPLOYER IDENTIFICATION NUMBER 1(Continued)		
<p>8a. READ STATEMENT ONLY ONCE PER RESPONDENT</p> <p>The next question is about the pay . . . received from this job during the 4-month period. We need the most accurate figures you can provide. Be sure to include any tips, bonuses, overtime pay, or commissions.</p> <p>What was the total amount of pay that . . . received BEFORE deductions on this job in (Read each month)?</p> <p>FOR MEMBERS OF THE ARMED FORCES — (Be sure to include housing allowances and any other special types of pay.)</p> <p>NOTE: Certain months contain 5 paydays for workers paid weekly and 3 paydays for workers paid every 2 weeks.</p>	<p style="text-align: center;">LAST MONTH</p> <div style="border: 1px solid black; padding: 2px; margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> 2032 \$ 00 </div> </div> <p> <input type="checkbox"/> None <input type="checkbox"/> DK <input type="checkbox"/> Ref. </p> <hr style="border-top: 1px dashed black;"/> <p style="text-align: center;">2 MONTHS AGO</p> <div style="border: 1px solid black; padding: 2px; margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> 2034 \$ 00 </div> </div> <p> <input type="checkbox"/> None <input type="checkbox"/> DK <input type="checkbox"/> Ref. </p> <hr style="border-top: 1px dashed black;"/> <p style="text-align: center;">3 MONTHS AGO</p> <div style="border: 1px solid black; padding: 2px; margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> 2036 \$ 00 </div> </div> <p> <input type="checkbox"/> None <input type="checkbox"/> DK <input type="checkbox"/> Ref. </p> <hr style="border-top: 1px dashed black;"/> <p style="text-align: center;">4 MONTHS AGO</p> <div style="border: 1px solid black; padding: 2px; margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> 2038 \$ 00 </div> </div> <p> <input type="checkbox"/> None <input type="checkbox"/> DK <input type="checkbox"/> Ref. </p>	<p style="text-align: center; font-size: small;">INTERVIEWER USE ONLY</p> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> Total \$.00 </div> </div> <hr style="border-top: 1px dashed black;"/> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> Total \$.00 </div> </div> <hr style="border-top: 1px dashed black;"/> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> Total \$.00 </div> </div> <hr style="border-top: 1px dashed black;"/> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> \$.00 </div> </div> <div style="margin-bottom: 10px;"> <div style="display: flex; justify-content: space-between;"> Total \$.00 </div> </div>
<p>CHECK ITEM E4</p>	<p>Is "DK" marked in all parts of item 8a?</p>	<div style="border: 1px solid black; padding: 2px;"> <div style="display: flex; justify-content: space-between;"> 2040 1 <input type="checkbox"/> Yes </div> <div style="display: flex; justify-content: space-between;"> 2 <input type="checkbox"/> No — SKIP to 9a </div> </div>
<p>8b. If we were to call back later would you (or . . .) be able to provide us with the amounts of pay . . . received in each of these months? (Information about how much . . . received each month is very important to the results of our survey.)</p>	<div style="border: 1px solid black; padding: 2px;"> <div style="display: flex; justify-content: space-between;"> 2042 1 <input type="checkbox"/> Yes — Mark Callback Summary and Reminder Card, item 3a </div> <div style="display: flex; justify-content: space-between;"> 2 <input type="checkbox"/> No </div> </div>

CHECK
ITEM S10

Is "DK" marked in all parts of 18?

2346

1 ☐ Yes

2 ☐ No — SKIP to Check Item S11

19. If we were to call back later would you (or . . .) be able to provide us with the amounts of income . . . received in each of these months? (Information about how much . . . received each month is very important to the results of our survey.)

2348

1 ☐ Yes — Mark Reminder Card and Callback Summary, Item 4b

2 ☐ No

CHECK
ITEM S11

Refer to item 15a, page 20.
Is this business incorporated?

2350

1 ☐ Yes — SKIP to first ISS Code or Check Item P1, page 45

2 ☐ No

CHECK
ITEM S12

Has information about the net profit (or loss) for this business already been obtained by another household member?

2352

1 ☐ Yes — SKIP to first ISS Code or Check Item P1, page 45

2 ☐ No

20a. Can you give me an estimate of the net profit or loss, that is, the difference between gross receipts and expenses for this business, during the 4-month period?

2354

1 ☐ Yes

2 ☐ No — SKIP to first ISS Code or Check Item P1, page 45

b. What was the net profit or loss?

2356

\$.00

2358

x4 ☐ Loss in amount box — If "Broke even," mark \$1 in box.

SKIP to first
ISS Code or
Check Item
P1, page 45

21. About how much did . . . earn from this business after expenses during the 4-month period?

2360

\$.00

x3 ☐ None
x1 ☐ DK
x2 ☐ Ref.

SKIP to first
ISS Code or
Check Item
P1, page 45

Section 3 — AMOUNTS

Part A — GENERAL AMOUNTS (ISS Codes 1 — 56)

1. You said . . . received (was authorized to receive)
(Read name of income type) during the 4-month
period.

Income code Name of income type

3000

(Read "was authorized to receive" if asking
about Food Stamps — code 27.)

**CHECK
ITEM A1**

Mark (X) income type code.

3002

- 1 ☐ ISS code 1 or 2 (SS or RR)
2 ☐ ISS code 25 (WIC) — SKIP to 13a, page 24
3 ☐ ISS code 27 (Food Stamps) — SKIP to 11a, page 24
4 ☐ ISS codes 37, 50, 51, 52, 53, or 56 — SKIP
to Check Item A4
5 ☐ Other ISS codes — SKIP to 5a

**CHECK
ITEM A2**

Refer to cc item 27.
Is . . . a designated parent, or guardian
of children under age 18?

3004

- 1 ☐ Yes
2 ☐ No — SKIP to Check Item A3

**2. During this 4-month period, were any separate
payments from (Social Security/Railroad
Retirement) received especially for . . . 's children?**

3006

- 1 ☐ Yes
2 ☐ No — SKIP to Check Item A3

**3. Did . . . also receive a separate payment for
(himself/herself) during any of these months?**

3008

- 1 ☐ Yes
2 ☐ No — SKIP to 9a

**CHECK
ITEM A3**

Is . . . married?

3010

- 1 ☐ Yes
2 ☐ No — SKIP to 5a

**4. Did . . . receive Social Security (Railroad
Retirement) jointly with . . . 's spouse?**

3012

- 1 ☐ Yes
2 ☐ No — SKIP to 5a

**CHECK
ITEM A4**

Has information about the amount received
by . . . from the income source entered in 1
already been recorded during an interview
for . . . 's spouse?

3014

- 1 ☐ Yes — SKIP to next ISS Code or Check Item P1,
page 45
2 ☐ No

5a. Did . . . receive any (Read name of income type) in
(Read each month)?

NOTE — Some persons receive more than one
payment per month for certain income types such
as Unemployment Compensation and AFDC.

5b. How much did . . . receive
in (Read each month marked
"Yes" in 5a)? Please
answer by giving the total
amount each month
before any deductions.

PROGRAM QUESTIONS

Section 4 — PROGRAM QUESTIONS

CHECK ITEM P1

Is this the reference person's
questionnaire?

4800

- 1 ☐ Yes
2 ☐ No — SKIP to Statement A, page 46

1 a. The government has an energy assistance program which helps pay heating and cooling costs. This assistance can be received by the household or it can be paid directly to the electric or gas company, fuel dealer, or landlord. Has this household received assistance of this type during the past 4 months?

4816

- 1 ☐ Yes
2 ☐ No
x1 ☐ DK } SKIP to Check Item P2

b. Was this assistance received in the form of checks, coupons or vouchers sent to this household or were the payments sent directly to a utility company, fuel dealer, or landlord?

4818

- 1 ☐ Checks sent to household
2 ☐ Coupons or vouchers sent to household
3 ☐ Payments sent directly to utility company, fuel dealer, or landlord

Mark (X) all that apply.

c. What was the total amount of the energy assistance received by this household during the past 4 months?

4824

\$. 00

x1 ☐ DK

CHECK ITEM P2

Are there any children 5 to 18 who
live in the household?

4826

- 1 ☐ Yes
2 ☐ No — SKIP to Statement A, page 46

2 a. Do any of the children in this household usually eat a complete hot lunch offered at school?

4828

- 1 ☐ Yes
2 ☐ No — SKIP to Statement A, page 46

b. How many children?

4830

Children

c. Do any of the children receive free or reduced-price lunches this school year because they qualified for the Federal School Lunch Program?

4832

- 1 ☐ Yes
2 ☐ No — SKIP to 2f

d. How many children?

4834

Children

e. Are the lunches free or are they reduced-price?
Mark (X) all that apply.

4836

- 1 ☐ Free
2 ☐ Reduced-price

f. Do any of the children receive free or reduced-price school breakfasts this school year?

4840

- 1 ☐ Yes
2 ☐ No — SKIP to Statement A, page 46

g. How many children?

4842

Children

h. Are the breakfasts free or are they reduced-price?
Mark (X) all that apply.

4844

- 1 ☐ Free
2 ☐ Reduced-price

PROGRAM QUESTIONS

Section 5 — TOPICAL MODULES

Part A — RECIPIENCY HISTORY

Statement A → Now I have some questions regarding past participation in Government programs.

**CHECK
ITEM T1**

Was an interview obtained for ... in
Wave 1?

8000

1 ☐ Yes

2 ☐ No — SKIP to Check Item T3

INTERVIEWER INSTRUCTION — Review the "Income Roster" on page 5 to determine if any changes were reported in the reciprocity of ISS Codes 1—10, 20—35, 40, and 41 during the previous reference period. Make any necessary changes in the "Reciprocity History Roster" below.

**CHECK
ITEM T2**

Are any income types or special
indicators listed in the Reciprocity
History Roster below?

8002

1 ☐ Yes

2 ☐ No — SKIP to Check Item T3

- 1. During our last visit we recorded that ... received (Read all sources listed below) sometime during the period (8 months ago) through (5 months ago). When did ... first begin to receive (Read each source)? (In column d, record beginning date of reciprocity that was occurring sometime in the period 5 to 8 months ago.)**

RECIPIENCY HISTORY ROSTER (ISS Codes 1—10, 20—35, 40, 41, 172, 176)

Line No.	Source	ISS code	Date reciprocity began						
			(d)		(d)				
(a)	(b)	(c)	Month	OR	DK	Year	OR	DK

ASK OR VERIFY —
**1. What was the name of ...'s MAIN employer or
business during the period (8 months ago)
through (5 months ago)?**

(If more than one, enter name of latest employer)

PGM 8

Name of employer or business

8204
**CHECK
ITEM T16**

Refer to cc item 42 or 43.

 What is the ID number of this employer
or business?

PGM 7
8206
☐ Employer number

8208
☐ OR
☐ Business number

} SKIP to 3

**CHECK
ITEM T17**

 Is "Worked" (code 170) marked on
the ISS?

8210

 1 ☐ Yes

 2 ☐ No — SKIP to 5a

ASK OR VERIFY —
**2. What was the name of ...'s MAIN employer or
business during the past 4 months?**
PGM 8

Name of employer or business

8212
**CHECK
ITEM T18**

 Refer to Check Item E3, page 14, Check
Item E6, page 16, Check Item S1, page
18, or Check Item S7, page 20.

 What is the ID number of this employer
or business?

PGM 7
8214
☐ Employer number

8216
☐ OR
☐ Business number

**3. When did ... start working for (Read name
of employer or business)?**

 (If worked for more than one period of time,
ask about latest period)

8218
 Month

 x1 ☐ Don't know

8220
 Year

 x1 ☐ Don't know

**CHECK
ITEM T19**

 Is "Employer number" filled in Check
Item T16 or T18 above?

8222

 1 ☐ Yes

 2 ☐ No — SKIP to 6a

**4a. About how many persons are (were) employed
by ...'s employer at the location where ...
works (worked)?**
8224

 1 ☐ Under 25

 2 ☐ 25 to 99

 3 ☐ 100 to 499

 4 ☐ 500 to 999

 5 ☐ 1,000 or more } SKIP to 4d

 x1 ☐ DK

**b. Does (Did) ...'s employer operate in more than
one location?**
8226

 1 ☐ Yes

 2 ☐ No

 x1 ☐ DK } SKIP to 4d

**c. About how many persons are (were) employed
by ...'s employer at ALL LOCATIONS?**
8228

 1 ☐ Under 25

 2 ☐ 25 to 99

 3 ☐ 100 to 499

 4 ☐ 500 to 999

 5 ☐ 1,000 or more

 x1 ☐ DK

**d. Is (Was) ... a member of a labor union at
that job?**
8230

 1 ☐ Yes

 2 ☐ No

 x1 ☐ DK

**e. Is (Was) ... covered by a union contract at that
job?**
8232

 1 ☐ Yes

 2 ☐ No

 x1 ☐ DK

Section 5 — TOPICAL MODULES (Continued)

Part 8 — EMPLOYMENT HISTORY — Continued

4f. For how many years has ... done the kind of work that ... does on this job?

8234

Years

OR

8236

Months

8238

x1 ☐ DK

	4a. When was ...'s second child born?	8792	<div style="display: flex; align-items: center;"> <div style="border-left: 1px solid black; padding-left: 5px;"> <input type="text"/> <input type="text"/> Month 8794 <input type="text"/> <input type="text"/> Year </div> <div style="margin-left: 10px;"> <input checked="" type="checkbox"/> Don't know </div> </div>																

Section 5 — TOPICAL MODULES (Continued)

Part H — FERTILITY HISTORY (Continued)

**CHECK
ITEM T49**

Refer to item 4a.

Was . . . 's second child born
on or after January 1, 1960?

8796

- 1 ☐ Yes
2 ☐ No — *SKIP to item 5a*

ASK OR VERIFY —
4b. With whom does the child live now?

8798

- 1 ☐ **Resides in this household** — *Go to Check Item T50*
- Resides elsewhere**
- 2 ☐ In his/her own household
- With relatives**
- 3 ☐ With own father
- 4 ☐ With own grandparent(s)
- 5 ☐ With adoptive parents
- 6 ☐ With other relatives
- With nonrelatives**
- 7 ☐ In foster care/foster family
- 8 ☐ In an institution (hospital)
- 9 ☐ In school
- 10 ☐ In correctional facility
- 11 ☐ Other
- 12 ☐ Deceased
- 13 ☐ DK
- SKIP to item 5a*

**CHECK
ITEM T50**

Write the person number of
the second child.

8800

Person number of second child

5a. When was . . . 's (first) child born?

8802

Month x1 ☐ Don't know

8804

1 9 Year x1 ☐ Don't know

**CHECK
ITEM T51**

Refer to item 5a.

Was . . . 's (first) child born on or after
January 1, 1960?

8806

- 1 ☐ Yes
2 ☐ No — *SKIP to Check Item T53, page 62*

ASK OR VERIFY —
5b. With whom does the child live now?

8808

- 1 ☐ **Resides in this household** — *Go to Check Item T52*
- Resides elsewhere**
- 2 ☐ In his/her own household
- With relatives**
- 3 ☐ With own father
- 4 ☐ With own grandparent(s)
- 5 ☐ With adoptive parents
- 6 ☐ With other relatives
- With nonrelatives**
- 7 ☐ In foster care/foster family
- 8 ☐ In an institution (hospital)
- 9 ☐ In school
- 10 ☐ In correctional facility
- 11 ☐ Other
- 12 ☐ Deceased
- 13 ☐ DK
- SKIP to Check Item
T53, page 62*

**CHECK
ITEM T52**

Write the person number of
the (first) child.

8810

Person number of first child

NOTES

Section 5 — TOPICAL MODULES (Continued)

Part I — HOUSEHOLD RELATIONSHIPS

**CHECK
ITEM T53**

What is the composition
of this household?

9266

- 1 ☐ One person HH
2 ☐ Two person HH consisting of husband and wife
3 ☐ Two person HH consisting of non-relatives
4 ☐ Other

SKIP to
Check
Item C1,
page 67

**CHECK
ITEM T54**

Is this the Reference Person's
questionnaire?

9268

- 1 ☐ Yes
2 ☐ No -- SKIP to Check Item C1, page 67

Pretranscribe each person's name and person number into column headings a—n; list names and person numbers in the SAME ORDER in the roster down the left side of this page.

AT TIME OF INTERVIEW

Verify the Roster against the current household composition in cc items 18 and 19a. If a person who was pretranscribed has left the household since last wave, line out name and person number in Roster space and column. If a person has entered the household since last wave, write in name and person number in the first available (blank) Roster space and column.

STATEMENT I

Now I need to record the EXACT relationships among the persons living here. Please answer by describing adoptive, step, or foster relationships, where appropriate. For each person number listed on the left side of this page, ask question 1 and enter codes from Flashcard HH.

ASK OR VERIFY —

1. What is the EXACT relationship of (person listed in roster) to (each person listed in columns a—n)?

PRE-INTERVIEW TRANSCRIPTION ITEMS

Fill the following items with a red pencil.

Item	Page
11a, Start time (Cover page)	1
2-4, 5b, 5c, 6	1
Check Item N1	1
Check Item R6	4
Income Roster, 11b, columns (2) and (3)	5
Check Item R7	4
Asset Roster, 28b, columns (2) and (3)	11
Check Item R32	10
Check Item T1	46
Reciency History Roster, 1, columns b and c	46
Check Item T15	49
Check Item T42	60
Household members' names and person numbers in roster and columns (on reference person's questionnaire)	62, 63
11a, Finish time (Cover page)	1

APPENDIX C

Working Papers

This appendix provides a list of a SIPP Working Papers. Any of these papers are free of charge. See the order form on page C-7.

1989

- 8901 - "Quality of SIPP Estimates," R. P. Singh, L. Weidman, and G. Shapiro, Census Bureau
- 8902 - "Two Notes on Sampling Variance Estimates from the 1984 SIPP Public-Use Files," by B. Bye and S. J. Gallicchio, Social Security Administration
- 8903 - "Longitudinal vs. Retrospective Measures of Work Experience," P. Ryscavage and J. Coder, Census Bureau
- 8904 - "Analyzing the Characteristics of Blacks: A Comparison of Data from SIPP and CPS," R. Farley and L. J. Neidert, University of Michigan
- 8905 - "Enhanced Demographic-Economic Data Sets," R. Herriot, C. Bowie, D. Kasprzyk, and S. Haber, Census Bureau
- 8906 - "Reflections on the Income Estimates from the Initial Panel of The Survey of Income and Program Participation (SIPP)," D. Vaughan, Social Security Administration
- 8907 - "Measuring Spells of Unemployment and Their Outcomes," P. Ryscavage, Census Bureau
- 8908 - "Welfare Dependency and its Causes: Determinants of the Duration of Welfare Spells," P. Ruggles, The Urban Institute
- 8909 - "Measuring the Duration of Poverty Spells," P. Ruggles, The Urban Institute and R. Williams, Congressional Budget Office
- 8910 - "Methods of Processing Unit Data Longitudinally on the SIPP," K. Smith, Congressional Budget Office
- 8911 - "Composite Estimation for SIPP Annual Estimates," R. P. Chakrabarty, Census Bureau
- 8912 - "Research and Evaluation Conducted on the Survey of Income and Program Participation," R. Petroni, T. Carmody, and V. Huggins, Census Bureau
- 8913 - "A Poisson Model of Response and Procedural Error Analysis of SIPP Reinterview Data," D. Hill, University of Michigan
- 8914 - "The Economic Resources of the Elderly," S. Crystal and D. Shea, Rutgers University
- 8915 - "Multivariate Analysis by Users of SIPP Micro-Data Files," R. P. Chakrabarty, Census Bureau
- 8916 - "A Resource-Based Model of Living Arrangements Among the Unmarried Elderly," J. E. Mutchler and J. A. Burr, University of Buffalo
- 8917 - "Measuring Household Change at The Individual Level Using Data From SIPP," A. Speare, Jr. and R. Avery, Brown University

SIPP RECTANGULAR FILES

- 8918 - "The Effect of Child Care Costs on Married Women's Labor Force participation," R. Connelly, Bowdoin College
- 8919 - "Income and Assets of Social Security Beneficiaries by Type of Benefit," S. Grad, Social Security Administration
- 8920 - "Development and Evaluation of a Survey-Based Type of Benefit Classification for the Social Security Program," D. Vaughan, Social Security Administration
- 8921 - "Wave Seam Effects in the SIPP," N. Young, The Urban Institute
- 8922 - "Components of Longitudinal Household Change for 1984-1985: An Evaluation of National Estimates from the SIPP," by Donald J. Hernandez, Bureau of the Census
- 8923 - "Database Design for Large-Scale Complex Data," by Martin H. David and Alice Robbin, University of Wisconsin-Madison
- 8924 - "Measuring the Frequency and Consequences of Job Separations: Data from the Survey of Income and Program Participation," by John M. McNeil and Enrique J. Lamas, Bureau of the Census
- 8925 - "The Regular Receipt of Child Support: A Multi-step Process," by James L. Peterson and Christine Winquist Nord, Child Trends, Inc.

1988

- 8801 - "The Impact of the Unit of Analysis on Measures of Serial Multiple Program Participation," by P. Doyle and S. E. Long, Mathematica Policy Research, Inc.
- 8802 - "Short-Term Fluctuations in Income and Their Impacts on the Characteristics of the Low-Income Population: New Data From the Survey of Income and Program Participation," by P. Ruggles, Urban Institute
- 8803 - "Residential Mobility of One-Person Households," by J. Witte and H. Lahmann, German Institute for Economic Research
- 8804 - "Year-Apart Estimates of Household Net Worth From the Survey of Income and Program Participation," by John M. McNeil and Enrique J. Lamas, Bureau of the Census
- 8805 - "Measuring Poverty and Crises: A Comparison of Annual and Subannual Accounting Program Participation," by Martin David and John Fitzgerald, Institute for Research on Poverty
- 8806 - "Using Administrative Record Data to Evaluate the Quality of Survey Estimates," by Jeffrey C. Moore and Kent H. Marquis, Bureau of the Census
- 8807 - "The Wealth of the Aged and Nonaged, 1984," by Daniel B. Radner, HHS
- 8808 - "Examining the Dynamics of Health Insurance Loss: A Tale of Two Cohorts," by Alan C. Monheit and Claudia L. Schur, NCHSR
- 8809 - "The Dynamics of Medicaid Enrollment," by Pam Farley Short, Joel C. Cantor, and Alan C. Monheit, NCHSR
- 8810 - "The Discouraged Worker Effect: A Reappraisal Using Spell Duration Data," by Alberto Martini, University of Wisconsin-Madison
- 8811 - "Income as a Proxy for the Economic Status of the Elderly," by Deborah J. Chollet and Robert B. Friedland, Employee Benefit Research Institute

- 8812 - "The SIPP: Data from the Social Security Administration's 1987 Annual Statistical Supplement"
- 8813 - "Participation in Industrial Training Programs," by Sheldon Haber, George Washington University
- 8814 - "A Methodological Study Using Administrative Records: The Special Frames Study of the Income Survey Development Program," by W. J. Logan, Social Security Administration, D. Kasprzyk and R. Cavanaugh, Census Bureau
- 8815 - "The Effect of Income Taxation on Labor Supply When Deductions are Endogenous," by R. K. Thriest, Johns Hopkins University
- 8816 - "A Comparison of Gross Change in Labor Force Status From SIPP and CPS," by P. Ryscavage and A. Feldman-Harkins, Census Bureau
- 8817 - "How are the Elderly Housed? New Data from the 1984 Survey of Income and Program Participation," by A. Goldstein, Census Bureau
- 8818 - "Welfare Reciprocity as Observed in the SIPP," by J. Coder, Census Bureau and P. Ruggles, The Urban Institute
- 8819 - "Reservation Wages and Subsequent Acceptance Wages of Unemployed Persons," by P. Ryscavage, Census Bureau
- 8820 - "Selected References From the Income Survey Development Program (ISDP) and Survey of Income and Program Participation (SIPP)"
- 8821 - "Training, Wage Growth, Firm Size," by S. Haber, The George Washington University and E. Lamas, Census Bureau
- 8822 - "Defining and Measuring Normetro Poverty: Results From The Survey of Income and Program Participation," by R. Hoppe, USDA-ERS-ARED
- 8823 - "Nonresponse Adjustment Methods For Demographic Surveys at the U.S. Bureau of the Census," by R. Singh and R. Petroni, Census Bureau
- 8824 - "Testing Telephone Interviewing in the Survey of Income and Program Participation and Some Early Results," by S. Durant and P. Gbur, Census Bureau
- 8825 - "Excluding Sample That Misses Some Interviews From SIPP Longitudinal Estimates," by L. Ernst and D. Gillman, Census Bureau
- 8826 - "The Employment of Mothers and the Prevention of Poverty," by M. Hill, University of Michigan and H. Hartmann, Rutgers University
- 8827 - "Using Administrative Record Data To Describe SIPP Response Errors," by J. Moore and K. Marquis, Census Bureau
- 8828 - "A Look at Welfare Dependency Using The 1984 SIPP Panel File," by J. Coder, D. Burkhead, and A. Feldman-Harkins, Census Bureau
- 8829 - "Census Bureau Microdata: Providing Useful Research Data While Protecting The Anonymity of Respondents," by G. Gates, Census Bureau
- 8830 - "The Survey of Income and Program Participation: An Overview and Discussion of Research Issues," by D. Kasprzyk, Census Bureau

SIPP RECTANGULAR FILES

1987

- 8701 - "Tracking Persons Over Time," by A. C. Jean and E. K. McArthur, Census Bureau
- 8702 - "Preliminary Data From the SIPP 1983-84 Longitudinal Research File," by J. F. Coder, D. Burkhead, A. Feldman-Harkins, and J. McNeil, Census Bureau
- 8703 - "Work Experience Data From SIPP," by P. Ryscavage and A. Feldman-Harkins, Census Bureau
- 8704 - "The Treatment of Person -Wave Nonresponse in Longitudinal Surveys," by G. Kalton, J. Lepkowski, S. Heeringa, Ting-Kwong Lin, and M. E. Miller, Survey Research Center, University of Michigan
- 8705 - "SIPP: Filling Data Gaps on the Poverty and Social Welfare Fronts," by P. Ryscavage, Census Bureau
- 8706 - "Response Errors in Labor Surveys: Comparisons Self and Proxy," by D. Hill University of Michigan
- 8707 - "Differences Between SIPP and Food and Nutrition Service Program Data on Child Nutrition and WIC Program Participation, by L. Ku and R. Dalrymple, Food and Nutrition Service, U.S. Department of Agriculture
- 8708 - "Quality Profile for the Survey of Income and Program Participation," by K. King, R. Petroni, and R. Singh, Census Bureau
- 8709 - "Survey of Income and Program Participation SIPP Sample Loss and the Efforts to Reduce It," by D. Nelson, C. Bowie, and A. Walker, Census Bureau
- 8710 - "The Impact of Imputation Procedures on Distributional Characteristics of the Low Income Population," by P. Doyle, Mathematica Policy Research, Inc., and R. Dalrymple, Food and Nutrition Service, U. S. Department of Agriculture
- 8711 - "Job Tenure, Lifetime Work Interruptions and Wage Differentials," by J. McNeil, E. Lamas, Census Bureau, and S. Haber, George Washington University
- 8712 - "Measuring the Bias in Gross Flows in the Presence of Auto-Correlated Response Errors," by D. Hubble, Census Bureau, and D. Judkins, Westat, Inc.
- 8713 - "Investigation of Possible Causes of Transition Patterns from SIPP," by L. Weidman, Census Bureau
- 8714 - "Households and Income Sources: Monthly Averages for 1984," by J. Moorman, Census Bureau
- 8715 - "Creating SIPP Longitudinal Files Using OSIRIS IV," by M. Servais, University of Michigan
- 8716 - "Transition In and Out of Poverty: New Data From the Survey of Income and Program Participation," by P. Ruggles, Urban Institute and R. Williams, Congressional Budget Office
- 8717 - "On their own: The Self-employed and Others in Private Business," by S. Haber, George Washington University, E. Lamas Bureau of the Census, and J. Lichtenstein, U.S. Small Business Administration.
- 8718 - "Factors Associated With Household Net Worth," by E. Lamas and J. McNeil, Bureau of the Census
- 8719 - "Exploring Changes in Health Care Coverage Using the SIPP Longitudinal Research File," by D. Burkhead and A. Feldman, Bureau of the Census
- 8720 - "The Analysis of Geographical Mobility and Life Events with the SIPP," by D. Dahmann and E. McArthur, Bureau of the Census

- 8721 - "A Review of the Use of Administrative Records in the Survey of Income and Program Participation, by C. Bowie and D. Kasprzyk, Census Bureau
- 8722 - "Survey of Income and Program Participation Update," by D. Kasprzyk, Bureau of the Census
- 8723 - "Measuring Poverty with the SIPP and the CPS," by R. Williams, Congressional Budget Office
- 8724 - "The Statistical Invisible Minority Aged," by C. Taeuber, Bureau of the Census, and E. Attah, Atlanta University
- 8725 - "An Analysis of the SIPP Asset and Liability Feedback Experiment," by E. Lamas and J. McNeil, Bureau of the Census

1986

- 8601 - "Some Aspects of SIPP," compiled and edited by R. A. Herriot and D. Kasprzyk, Census Bureau
- 8602 - "Nonsampling Error Issues in the SIPP," by G. Kalton, University of Michigan, and D. B. McMillen and D. Kasprzyk, Census Bureau
- 8603 - "An Investigation of Model-Based Imputation Procedures Using Data From the Income Survey Development Program," by V. J. Huggins and L. Weidman, Census Bureau
- 8604 - "Food Stamp Participation: A Comparison of SIPP With Administrative Records," by S. Carlson and R. Dalrymple, Food and Nutrition Service
- 8605 - "SIPP Longitudinal Household Estimation for the Proposed Longitudinal Definition," by L. R. Ernst, Census Bureau
- 8606 - "A Comparison of Seven Imputation Procedures for the 1979 Panel of the Income Survey Development Program," by V. J. Huggins, Census Bureau
- 8607 - "An Investigation of the Imputation of Monthly Earnings for the Survey of Income and Program Participation Using Regression Models," by V. J. Huggins and L. Weidman, Census Bureau
- 8608 - "Evaluation of Training Materials and Methods for the Survey of Income and Program Participation," by M. Holt, Survey Research Consultant
- 8609 - "Patterns of Household Composition and Family Status change," by C. F. Citro, ASA/Census Research Fellow, and H. W. Watts, Department of Economics, Columbia University
- 8610 - "Composite Estimation for SIPP: A Preliminary Report," by R. P. Chakrabarty, Census Bureau
- 8611 - "Longitudinal Household Concepts in SIPP: Preliminary Results," by C. F. Citro, ASA/Census Research Fellow, D. J. Hernandez, and R. A. Herriot, Census Bureau
- 8612 - "Following Children in the Survey of Income and Program Participation," by E. K. McArthur, K. S. Short, and S. Bianchi, Census Bureau
- 8613 - "SIPP Labor Transitions: Problems and Promises," by P. Ryscavage and K. S. Short, Census Bureau
- 8614 - "Augmenting Data Reported in the Survey of Income and Program Participation With Administrative Record Data - A Brief Discussion," by D.K. Sater, Census Bureau

SIPP RECTANGULAR FILES

1985

- 8501 - "The Survey of Income and Program Participation: Uses and Application," by K.S. Short, Census Bureau
- 8502 - "Application of a Matched File Linking the Bureau of the Census Survey of Income and Program and Participation and Economic Data," by S. Haber, George Washington University
- 8503 - "Using the Survey of Income and Program Participation for Research on the Older Population," by D. B. McMillen, C. M. Taeuber, and J. Marks, Census Bureau
- 8504 - "Summary of the Content of the 1984 Panel of the Survey of Income and Program Participation," by D. T. Frankel, Census Bureau
- 8505 - "Enhancing Data From the Survey of Income and Program Participation With Data From Economic Censuses and Surveys," by D. K. Sater, Census Bureau
- 8506 - "Methodologies for Imputing Longitudinal Survey Items," by V. J. Huggins, L. Weidman, and M. E. Samuhel, Census Bureau
- 8507 - "New Household Survey and the CPS: A Look at Labor Force Differences," by P. M. Ryscavage, Census Bureau, and J. E. Bregger, Bureau of Labor Statistics

1984

- 8401 - (Update No. 1, Revised 12/85) "An Overview of the Survey of Income and Program Participation," by D. Nelson, D.B. McMillen, and D. Kasprzyk, Census Bureau

**SIPP WORKING PAPERS
ORDER FORM**

These papers are free of charge. To receive any of these papers, put a check by the appropriate number and mail this form to:

Daniel Kasprzyk
Chief, SIPP Research and
Coordination Staff
Office of the Director
Silver Hill Executive Plaza
Suite 2A
Bureau of the Census
Washington, DC 20233

If you request papers by phone, please contact Hazel Beaton or Debra Grant on (301) 763-8328.

APPENDIX D

Machine-Readable Data Dictionary Layout

Data dictionary lines are 46 characters. The character on the first position determines the type of lines. Each variable may have the following lines:

1. COMMENTS (" * ") lines
2. DATA DICTIONARY (" D ") ; line and DATA DESCRIPTION
3. UNIVERSE (" U ") lines
4. VALUE DESCRIPTION lines
5. One blank line at the end

FORMAT

"*" LINE – COMMENTS

- a. " * " in the first position indicates that this is a comment line. This line can appear any place in the dictionary. It will be used for short comments or to nullify any value codes.
- b. " ** " in the first two positions is also comments but it has additional meaning. It indicates this is a block of comments which will be applied to several variables. The first line of this block will have the COMMENT NO. so that subsequent variable can refer back to this comment block.

"D" LINE – DATA DICTIONARY

This line contains the following information:

ID	"D"	COL	1- 1
NAME	Variable name	COL	3-10
SIZE	Size of data field	COL	14-15
BEGIN	Begin position of data field	COL	19-22
TYPE	Character variable indicator "CHAR" or blanks if numeric variable	COL	26-29
DEC	Implied decimal places	COL	33-34
IND	TABLE variable indicator "TABLE" with "(aa)" for its dimension; otherwise blanks	COL	38-46

Text describing the variable will follow this "D" line. Use COL. 6-46 and repeat as many lines as necessary.

"U" LINE – UNIVERSE DEFINITION

This line contains the universe definition. Use COL. 3-46 and repeat as many lines as necessary.

ID	" U "	COL	1- 1
DESCRIPTION	Universe description	COL	3-46

(For continuation use COL. 3-46 and repeat as many lines as necessary.)

"V" LINE – VALUE DEFINITION

ID	" V "	COL	1- 1
VALUE	Value code-right justified	COL	3-12
	" "	COL	14
DESCRIPTION	Value description	COL	15-46

(Repeat COL. 14-46 format for continued value description.)

APPENDIX E

User Notes

This section is reserved for any information relevant to the SIPP 1987 Panel, Wave 2 Rectangular Microdata File that indicates specific problems with the data, or that becomes available after the file is released. Any such information should be filed behind this page.

User Notes will be sent to all users who (1) purchased their file (or technical documentation) from the Census Bureau and (2) returned the coupon following the title page.
